MARCH..

Provision for iron bars to windows

Directing Superintending Engineers to make — in all estimates for Registration offices.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers:—

From A. A. G. MALET, Esq., Executive Engineer, Salem Division, to the District Registrar of Salem, dated 28th November 1896, No. 1134/M.

With reference to correspondence ending with your No. 2675, dated 26th August 1896, regarding the construction of a Sub-Registrar's office at Pennagaram, Dharmapuri taluk, I have the honour to inform you that plans and estimates for Rs. 2,630 have this day been sent to the Superintending Engineer for sanction.

There are four windows as per standard plan—two in front with venetian shutters and two at sides with venetian and inner glazed shutters—for clerks and office-rooms.

I request to be informed, before the work is put in hand, whether any of these windows are to be provided with iron bars.

I have, on several occasions, received requisitions, &c., to insert iron bars in these windows after the building was constructed, and with windows which have both venetian and glazed shutters it is impossible to insert iron bars without removing the frames.

From the District Registrar of Salem, to the Executive Engineer, Salem Division, dated 30th November 1896, No. 3666.

In reply to your letter, No. 1134/M., dated 28th November 1896, I have the honour to inform you that in my view it would be safer to provide all the windows of a Registrar's office with iron bars.

G.O., No. 258, Judicial, dated 20th February 1897.

Read—the following papers:—

Endorsement of the Public Works Department, No. 98 C., dated 7th January 1897, on letter from the Superintending Engineer, IV Circle, No. 638 W., dated 19th December 1896.

From the Inspector-General of Registration, Madras, dated 20th January 1897, G. No. 341.

In reply to endorsement from Government, No. 82, Judicial, dated 15th instant, I have the honour to state that I entirely agree with the Superintending Engineer, IV Circle, as to the necessity for providing iron bars to windows in all Registration offices. I have already addressed Government on the subject (*vide* paragraph 3 of my endorsement, G. No. 87, dated 9th instant).

Order—No. 258, Judicial, dated 20th February 1897.

The Inspector-General's letter will be communicated to the Public Works Department with an expression of concurrence therein.

(True Extract.)

(Signed) W. FRANCIS,
for Chief Secretary.

Executive Engineer's Office
Salem Divn
De November 1896

From
A. A. G. Matel Eng
Executive Engineer Salem Divn
To
The District Registrar
of Salem

Sir,

With reference to correspondence
ending with your No 2675 of 26th August
96 regarding the construction of a Dist.
Registrar's Office at Permagaram,
Shorampuri Taluk, I have the honor to
inform you that plans & estimates for
Rs 2630 have this day been sent to the
Supg. Engr for sanction.

There are four windows
as per standard plan, two in front
with Venetian shutters and two at
sides with Venetian and nurse flange
shutters for cloth & office rooms.

I request to be informed
before the work is put in hand whether
any of these windows are to be provided
with

with iron bars.

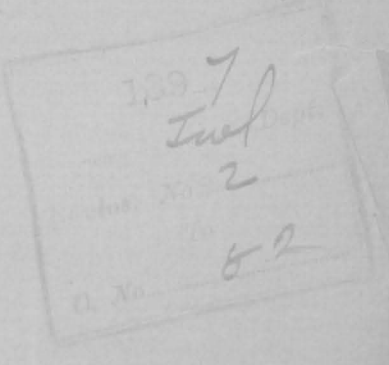

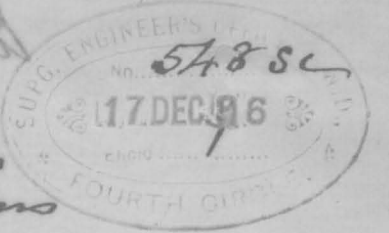

I have on several occasions
received requests &c to insert
iron bars in the windows after
the building was constructed and
with windows which have both

ventilation and glazed shutters it is
impossible to insert iron bars without
removing the frames.

I have &c
(cc) A. A. G. Mather
Executive Engineer
Salem.
