I should be glad if the Hon. M.

this. Famine no doubt will
add to the Examiner's work, but
the usual way in which the request
is shifted from one person to

with confidence in the case.

The position has not changed since

OFFICE NOTE No. 5-5-C

To

W.

G. O. No. 277 W. of 28th. January 1897.

I regret Government consider it unnecessary to sanction the employment of two clerks in my office in connection with the audit of the Light House Division accounts, although I have pointed out that extra work in connection with this Division is thrown upon all the branches of my office. Assistance is really necessary both on the above account, and also on account of Famine work. One man is wanted for Famine bills of the Bellary, Kurnool and Cuddapah Divisions and one clerk is also needed in the other branches in consequence of the extra work thrown upon them. The Famine expenditure has to be separately recorded, and correspondence has increased already considerably. If Government declines sanction as for the Light House Division, I ask for it in consequence of the extra work due to Famine. I may require more help later on but at present I require only 2 clerks.
