## PUBLIC WORKS DEPARTMENT.

### General.
### Establishment.

READ—the following papers :—

From W. B. DEWINTON, Esq., Superintending Engineer, III Circle, to the Chief Engineer, Public Works Department, dated Bellary, 22nd February 1897, No. 4089 W.

With reference to paragraph 194, chapter XIII of Famine Code, I have the honour to submit, herewith, a statement in form No. H (*c*) showing the appointments made by the Divisional officers of this circle up to 13th February 1897 for carrying out the famine-relief works.

2. It would be observed from the statement under reference that almost all the clerks employed are unpassed men. Applications for exemption for some of them have already been submitted to you for sanction of Government.

3. I take this opportunity of again bringing to your special notice the difficulty that is experienced in getting in Ceded districts passed candidates to take up temporary appointments, and I therefore request that so long as there are famine-relief works in this circle, you will be good enough to obtain the sanction of Government authorizing me to appoint unpassed men to posts carrying salaries up to and including Rs. 20 without further reference, and all appointments of unpassed men above Rs. 20 will be reported to you and sanction of Government obtained.

4. As the appointments of Sub-overseers are also included in this statement, no separate report will be submitted as required in paragraph 51, chapter I, Volume I of Government of India Code.

From the Superintending Engineer, III Circle, dated 12th March 1897, No. 4468 W.

ORDER—No. 876 W., dated 26th March 1897.

The lists are approved, subject to the scale of temporary establishment to be finally sanctioned for the several divisions.

2. His Excellency the Governor in Council desires that, in future, all additions to the ordinary subordinate staff of a division made on account of famine, or to carry out famine-relief works, shall be transmitted to the Collector of the district for his concurrence, before being submitted for the sanction of Government. This applies to the scale, not the *personnel* of the additional staff proposed. The Collector is the head of his district, charged with the duty of saving life and relieving distress, and it is necessary that he should have a predominating voice both in deciding what measures are required for this purpose, and in passing the proposals made by the Public Works Department for the establishments needed to carry out those measures.

3. The Superintending Engineer's letter, No. 4089 W., dated 22nd February 1897, will be communicated to the Educational Department for consideration with reference to paragraph 3.

(True Extract.)

(Signed) D. McNEIL CAMPBELL, Colonel, R.E.,
Secretary to Government.

Note for orders

His Excellency's remarks on the office note dated 12th March /97

A draft order is submitted as desired for approval but before it is passed I would request a reconsideration of the matter with reference to the following para of the Famine Code.

(H.E. from previous draft marked thus // )

From the above it appears to me that the Code does not contemplate that the approval of the Collector is necessary to the establishments on which works under the D.P.W. which is undoubtedly a professional matter.

18/3/97

W

D

1998

S.
W

Submitted with reference to His Excy's note.

Para 194 of the Famine Code does not require that tempy appts. made for famine works by Ex. Engrs should be subject to the approval of the Collr.

Para 193 makes the Supdg Engr responsible that an efficient staff is maintained.

The lists of estabts. apparently do not require to be submitted to the Rev. Board.

If the Collector's authority is brought in in this matter there will probably be friction.

For orders.

## Note by the Chief Engineer, P.W.D.

---

With reference to His Excellency's remarks on this office note dated 12th March 1897, I think it advisable that I should submit the following explanation before final orders are passed. It is evident that the Famine Code contemplates that Famine Relief Works should be, as far as concerns professional matters, entirely under the P.W.D. The following paras of the Famine Code bear on the point:-

//

Para 24. The Collector is the Agent of Government for carrying out measures of relief. His decision should be accepted in all matters x x which are not of a merely technical nature. Officers x x will take their orders from him on all matters not strictly professional.

Para 41. It is the duty of the Chief Engineer to submit proposals for increase to the staff of the P.W.D.

Para 110. The Executive Engineer in purely professional matters to be subject to the Superintending Engineer's supervision.

Para 111. The subordinate staff required for the execution of works

will

will be provided in the P. W. Department.

Para 113. When a relief work is ordered to be opened, the Executive Engineer will make all necessary arrangements for carrying it out, getting together the requisite staff and tools etc.

Para 182 (I)(2) & II(2). All salary charges of the P.W.D. to be paid and audited in the P.W.D.

Para 193. The staff of clerks to be fixed by the Superintending Engineer.

Para 194. List of appointments made by Executive Engineers to be submitted weekly for the approval of Government. Nothing said about sending it through the Collector.

Para 4 of G.O. No. 133 Financial dated 8-2-97 (clause 2) says that the P.W.D. shall take charge of construction.

The Collectors are entrusted with the general control of relief operations, and they order the P.W. officers to open relief works in certain places: but the arrangements for carrying out these works should, as contemplated by the Code, be left entirely to the P.W.D., otherwise there will be nothing but confusion and friction. There is no doubt that relief works as a rule require little professional knowledge of a scientific

character

Note by the Chief Engr PWD

character, but they are not all limited to breaking road metal, projects of considerable importance being sometimes undertaken; but even as regards breaking metal an Engineer is more likely to know what supervision is necessary than a non-professional man: arrangements for carrying out work and the division of labour form part of an Engineer's profession, while they are not that of a Collector. The Superintending Engineers are selected officers of generally over 20 years' service which has been passed on the supervision of works, and they must be better judges of the supervision necessary than a Collector who has probably never been in charge of a work in his life, and who has moreover so much work of his own to do that he cannot possibly conduct duties properly belonging to the P.W. Department in addition. Because the work is a famine work does not seem to me to alter the case.

I cannot too strongly urge that the intentions of the Code be not set aside, and Collectors allowed to interfere in professional details. I have been through two famines and I know what [illegible] it means. The Collector is charged with the saving of life and has a predominating voice in the arrangements of relief

works:

works: but it was undoubtedly never contemplated that he should fix the Engineering establishment necessary to carry out a work in charge of the P. W. D.

As far as I am aware the famine relief works in Bellary have been carried on in a very satisfactory manner up to date, and it is not apparent why the system now in force should be altered.

E. W.

---

Note by the Chief Engr PWD

With reference to H.E remarks on this office note dated 12/3/87 I think it advisable that I should submit the following explanation before final orders are passed.

It is evident that the famine Code contemplates that famine relief works should be, so far as concerns professional matters entirely under the P.W.D.

How [illegible] the famine [illegible] & the [illegible]

The Collectors are entrusted with the general control of relief operations, and they order the P.W officers to open ~~xxx~~ relief works in certain places: but the arrangements for carrying out these works should, in contemplation of the Code, be left entirely to the P.W.D., otherwise there will be nothing but confusion & friction.

There is no doubt that relief works as a rule require little professional knowledge & are of a simple character: but they are not all limited to breaking road metal, works of considerable importance being sometimes under taken: but even as regards breaking metal an Engineer is more likely to know what supervision is necessary than a non professional man, arrangements for carrying out work & the division of labour ~~is~~ form part of an Engineer's profession, while ~~it is~~ they are not those of a Collector. The Dept. have as selection officers of seniority over 20 years service, ~~[illegible]~~ which has been passed on the construction of works and they would be better judges of the supervision necessary than a Collector who has probably never been in charge of a work in his life: and who has ~~[illegible]~~ probably so much work of his own to do that he cannot properly consider duties properly belonging to the P.W. Dept. in addition. Because the work is a famine work does not seem to me to alter the case.

I cannot too strongly urge that the intentions of the Code be not set aside, and Collectors allowed to interfere in professional details. I have been through two famines & know what it means. The Collector is charged with the carrying out of the works has a predominating voice in the arrangements of relief works: but it was undoubtedly never contemplated that he should fix the engineering details necessary to carry out a work ~~that~~ in charge of the D.P.W.

As far as I am aware the famine relief works in Bellary have been carried on in a very satisfactory manner up to date, and it is not apparent why the system now in force should be altered.

17/3/97

W

The following paras of the Famine Code bear on the point —

Para ~~44~~ 24 - The Collector is the agent of Govt for carrying out measures of relief — his decision should be accepted in all matters &c &c which are not of a merely technical nature. Officers &c &c will take their orders from him on all matters not strictly professional.

Para 41 - It is the duty of the Chief Engr to submit proposals for increase to the staff of the P.W.D.

Para 110 - The Ex Engr in purely professional matters to be subject to the Supdg Engr's supervision

Para 111 - The subordinate staff required for the execution of works will be provided in the P.W. Deptt.

Para 113 - When a relief work is about to be opened, ~~and~~ the Ex Engr will make all necessary arrangements for carrying it out, getting together the requisite staff & tools &c.

Para 182 (I)(2) & II(2) All salary charges of the P.W.D. to be paid & audited in the P.W.D.

P 70

Para 193. The staff of clerks to be fixed by the Supdt. Engr. —

Para 194. List of applns. made by Ex. Engr. to be submitted weekly for the approval of Govt. Nothing said about sending it through the Collector.

16.3.97

P.S. Para 4 of G.O. No. 133 Fin. of 8.2.97 (clause 2) says that the P.W.D. shall take charge of construction

P. W. Department.

~~Read the following:—~~

FOR ORDERS.

His Excellency's remarks on this office note dated 12th March 1897.

A draft order is herewith sent for approval but before it is passed I would request a reconsideration of the matter with reference to the following paras of the Famine Code.

Para 24. The Collector is the Agent of Government for carrying out measures of relief. His decision should be accepted in all matters x x which are not of a merely technical nature. Officers x x will take their orders from him on all matters not strictly professional.

Para 41. It is the duty of the Chief Engineer to submit proposals for increase to the staff of the P.W.D.

Para 110. The Executive Engineer in purely professional matters to

Para. 2 of the Draft Order might be modified as follows:— "H.E. the "Governor-in-Council desires that "in future, all additions to the ordinary "subordinate Staff of the District, "made on account of famine or "to carry out famine relief works, "shall be transmitted to the Collector "of the District for his concurrence, "before being submitted for the sanction "of Government. This applies to the "scale, not to the personnel of the "additional staff proposed.

"The Collector is the head of his District to be subject to the Superintending Engineer's supervision.

Para 111. The subordinate staff required for the execution of works will be provided in the P.W.Dept.

Para 113. When a relief work is ordered to be opened, the Executive Engineer will make all necessary arrangements for carrying it out, getting together the requisite -- staff and tools etc.

Para 182 (I)(2) & II (2). All salary charges of the P.W.D. to be paid and audited in the P.W.D.

Para 193. The staff of clerks to be fixed by the Superintending -- Engineer.

Para 194. List of appointments made by Executive Engineers to be submitted weekly for the approval of Government. Nothing said about sending it through the Collector.

Para 4 of G.O.No.133 Financial dated 8th February 1897 (clause 2) says that the P.W.D. shall take charge of construction.

From the above it appears to me that the Code does not contemplate that the approval of the Collector is necessary to the establishment employed on relief works under the D.P.W. which is undoubtedly a professional matter.

18/3/97

W.

## FOR ORDERS.

"district, charged with the duty of saving
"life and relieving distress, and it is
"necessary that he should have a pre-
"-dominating voice both in deciding
"what measures are ~~necessary~~ required for
"this purpose, and in passing the
"proposals made by the P.W.D., for
"the establishments needed to carry these
"measures out".

I cannot see that the above is opposed to the passage quoted. And, of this I am sure, that in an emergent and exceptional matter, such as famine relief, it is essential to concentrate authority.

# PROCEEDINGS OF THE MADRAS GOVERNMENT.

READ the following

From the S.E. III Circle No 4089W of 22 Feby 1897.
" " ——do—— " 4468W of 12 March 1897.

The lists are approved, subject to the scale of temporary establ: to be finally sanctioned for the several divisions.

2. H.E. the Govr in Council observes that it is difficult to check intelligently the figures given in the lists, and directs that future similar statements be examined & passed by the Collectors concerned before they are submitted for approval under para 194 of the Famine Code.

3. The Supdg Engrs letter No 4089W of 22 Feby 1897 will be communicated to the Educational depart

[P. W. 40.
1,000—16-1-97.]

for consideration, with reference to para 3.

18/3/97

S. E. III Circle
Eng. P. WD., with 2 lists
for note & return
Genl Dept
Rev. Dept.

---

Paras 193 & 194 do not conflict with the order passed; and that Order is right for two reasons:-

(i) the Collector is charged with the duty of saving life, and should have a predominating voice, both in deciding what measures are needed for this purpose, and in passing the proposals ~~for~~ ~~[illegible]~~ of the D. P. W. for the establishments needed to carry these measures out.

(ii) The D. P. W. evidently find a difficulty in checking the proposals for establishments made by their own Depts. Col. Campbell realizes this in offering to devise an easier means of check.

Colonel Campbell writes of the Staff necessary to carry out an engineering work. This is a grand term to apply to overseers watching coolies

---

P. WD.

Note for H. E. the Govr.

His Excy's note of 6.3.97

Para 194 of the Famine Code does not require that temporary subordinate appointments made for famine relief works by Executive Engrs should be subject to the approval of the Collector.

Para 193 makes the Supdg: Engineer responsible that an efficient staff is maintained.

The lists of establishment do not require to be submitted to the Rev. Board.

If the Collector's authority in this matter is brought in, there will probably be friction & extra correspondence.

If His Excy. wishes the Supdg Engr will be told to prepare future lists in such form as to admit of more easy check.

12/3/97
W

The opinion of the Collector as to what staff is necessary to carry out an Emergency but cannot I think be of as much value as that of the Supt. Eng. & Ex. Eng. in immediate charge, [illegible]

12/3/97

Coolies breaking road metal.

The order is needed for famine times, it is suited to famine times, and is special to famine times. It does not affect the D.P.W. in their ordinary everyday work.
