* Figures not available.

Area affected—Condition and prospects of.—The affected area has increased from 16,374 square miles to 17,941. The increase is due to the inclusion of the Bhadráchalam taluk of Gódávari district, the correction of estimates, and the gradual absorption of unaffected tracts within the area of distress.

Agricultural operations were carried on to but a limited extent in the affected districts.

The condition of cattle, especially the poorer sorts, remains critical in the Deccan districts, owing to want of pasturage and fodder. Forest reserves have been thrown open to free grazing, and fodder has been imported, with the help of the Indian Famine Charitable Relief Fund Committee, from Kistna and the south.

No improvement in the condition of the affected areas occurred during the month, nor will prospects brighten unless and until the south-west monsoon is established.

2. *Nature of works.*—As before, the work given consisted mainly of road construction.

3. *Operations under the Loans Acts.*—In addition to the numbers employed on State relief works, about 22,000 persons are reported to have been employed on land improvement works, for which Rs. 1,28,000 were disbursed during the month as shown in the subjoined table :—

Districts.	Land Improvement Loans.								Number of wells.		Estimated number of labourers employed.
	For wells.				Other purposes.

Grand Total ..	259	46,638	141	33,718	1,006	1,04,970	908	94,317	9	1,076	21,548

* Incomplete.

4. Wages have been calculated on prices varying from 11·0 to 14·5 seers to the rupee. Workers were mainly in receipt of the B wage, which averaged about As. 1–6 for a man. Nearly all of those on C wages are weavers.

5. *Gratuitous relief.*—Owing to the organization of village relief with money doles for those who, by caste, are prevented from attending kitchens, the number on gratuitous relief increased to 74,353. The number on such relief was excessive only in Ganjám, where the conditions are peculiar.

6. *Prices.*—The price of dry grains rose during the month, especially in the Circars, and was in every affected district above the scarcity rate, being 27 per cent. above the scarcity rate in Bellary.

7. *Imports and exports.*—The activity of trade is shown by the subjoined figures :—

Districts.	Imports and exports by rail.			
	April.		May.	
	Imports.	Exports.	Imports.	Exports.
	I. MDS.	I. MDS.	I. MDS.	I. MDS.
Ganjám	4,300	21,800	6,000	25,200
Vizagapatam	46,300	6,200	57,900	5,290
Kurnool	18,700	8,400	13,800	5,100
Bellary	65,200	13,600	53,100	23,500
Anantapur	17,520	41,450	16,135	31,699
Cuddapah	26,595	13,394	10,848	15,311

The large exports from Ganjám and Anantapur continue; in the former, they are said to be due to the necessity of fulfilling outstanding contracts; in the latter, they are due to demands from Bombay, and this explanation probably accounts for the high rate of exportation also from Bellary and Cuddapah. In Bellary the exports are more than counterbalanced by imports, and in the other three districts, there are considerable tracts not yet brought within the affected zone, or only slightly affected.

8. *Condition of the people.*—The condition of the people was on the whole fair, except in Ganjám. The low condition of the people in this district was due partly to the repugnance, more unreasonable among the Uriyas than elsewhere, to accept State relief, and partly to the want of accurate information and reliable officials in the zemindaris, of which this district is largely composed.

9. *Mortality.*—The following table shows the deaths in April 1897 and in the period, October—April 1896–97, and the average rates for the same periods. Figures for May are not yet available :—

Districts.	Number of deaths reported			
	During April		From October to April.	
	1897.	Average.	1897.	Average.
Ganjám	3,200	1,765	19,182	13,401
Vizagapatam	2,314	2,078	17,288	19,935
Kurnool	1,110	1,582	7,962	10,251
Bellary	1,585	1,384	9,927	9,795
Anantapur	977	907	7,443	6,808
Cuddapah	1,757	2,470	13,829	16,745

The excessive mortality in Ganjám is ascribed to cholera and small-pox.

4. Wages have been calculated on prices varying from 11·0 to 14·5 seers to the rupee. Workers were mainly in receipt of the B wage, which averaged about As. 1–6 for a man. Nearly all of those on C wages are weavers.

5. *Gratuitous relief.*—Owing to the organization of village relief with money doles for those who, by caste, are prevented from attending kitchens, the number on gratuitous relief increased to 74,353. The number on such relief was excessive only in Ganjám, where the conditions are peculiar.

6. *Prices.*—The price of dry grains rose during the month, especially in the Circars, and was in every affected district above the scarcity rate, being 27 per cent. above the scarcity rate in Bellary.

7. *Imports and exports.*—The activity of trade is shown by the subjoined figures:—

Districts.	Imports and exports by rail.			
	April.		May.	
	Imports.	Exports.	Imports.	Exports.
	I. MDS.	I. MDS.	I. MDS.	I. MDS.
Ganjám	4,300	21,800	6,00[illegible]	[illegible]
Vizagapatam	46,300	6,[illegible]	[illegible]	25,200
Kurnool	18,700	[illegible],200	[illegible]00	5,290
Bellary	65,[illegible]	8,400	57,900	5,100
Anantapur	[illegible],200	13,600	13,800	23,500
Cuddapah	17,520	41,450	53,100	31,699
..	26,595	13,394	16,135 10,848	15,311

The large exports from Ganjám and Anantapur continue; in the former, they are said to be due to the necessity of fulfilling outstanding contracts; in the latter, they are due to demands from Bombay, and this explanation probably accounts for the high rate of exportation also from Bellary and Cuddapah. In Bellary the exports are more than counterbalanced by imports, and in the other three districts, there are considerable tracts not yet brought within the affected zone, or only slightly affected.

8. *Condition of the people.*—The condition of the people was on the whole fair, except in Ganjám. The low condition of the people in this district was due partly to the repugnance, more unreasonable among the Uriyas than elsewhere, to accept State relief, and partly to the want of accurate information and reliable officials in the zemindaris, of which this district is largely composed.

9. *Mortality.*—The following table shows the deaths in April 1897 and in the period, October—April 1896–97, and the average rates for the same periods. Figures for May are not yet available:—

Districts.	Number of deaths reported			
	During April		From October to April.	
	1897.	Average.	1897.	Average.
Ganjám	3,200	1,765	19,182	13,401
Vizagapatam	2,314	2,078	17,288	19,935
Kurnool	1,110	1,582	7,962	10,251
Bellary	1,585	1,384	9,927	9,795
Anantapur	977	907	7,443	6,808
Cuddapah	1,757	2,470	13,829	16,745

The excessive mortality in Ganjám is ascribed to cholera and small-pox.

FAMINE STATEMENT B.

For the period ending Saturday the 29th May 1897.

Districts.	Maximum number for whom relief is estimated to be required in the case of serious famine.	Number for whom relief was provided in programmes of famine-relief works.			Maximum number for whom relief can be provided by works remaining in programmes on date of report	
		Date of programme.	On large works.	Others.	On large works.	Others.
