JUNE.

Famine-Relief Works.—Reviewing the programme of — for 1897–98, received from the Collector of Nellore.

PROCEEDINGS OF THE BOARD OF REVENUE
(REVENUE SETTLEMENT, LAND RECORDS AND AGRICULTURE).

READ—the following letter from V. VENUGOPAUL Chetty, Esq., Acting Head Assistant Collector of Nellore, in charge, to the Secretary to the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated 15th April 1897, No. 1256:—

I have the honour to forward the programme of famine-relief works for 1897–98 with the three prescribed statements.

2. The total amount provided is Rs. 23,88,811, which is expected to be sufficient to provide labour for 21·74 per cent. of the total population of the district against 20 per cent. in the previous year's programme and 16·4 per cent. of the year before.

3. The following abstract shows the extent of works provided for each taluk:—

Taluk or division.	Total population.	Number provided for	Percentage.
Ongole	225,000	41,656	18·5
Kandukur	148,000	31,283	21·
Kanigiri	131,000	16,915	12·88
Podili division	68,000	12,737	18·60
Darsi ,, ...	85,000	10,172	12·
Gudur taluk	136,000	42,247	31·
Rapur ,, ...	61,000	21,002	34·60
Venkatagiri division	56,000	14,045	24·91
Polur division	70,000	17,296	24·85
Atmakúru taluk	101,000	14,096	13·93
Udayagiri taluk	100,000	27,783	27·72
Nellore taluk	198,000	49,881	24·95
Kavali taluk	83,000	19,002	22·86
Total ..	1,462,000	318,315	21·74

Though the total provision for the district exceeds 20 per cent., the individual provision for three taluks and two divisions falls short of the prescribed minimum, especially in Kanigiri and Atmakúru taluks and Darsi division where labour is provided only for 12·88, 13·93 and 12 per cent., respectively, of the population. Leaving Atmakúru aside, which is partly traversed by the Pennar river and which may be supplemented by the excess provision in Udayagiri and Nellore, two adjoining taluks, it is to be noted that provision for labour is inadequate in the two localities where it is most needed, viz., Kanigiri and Darsi. The Sub-division Deputy Collector reports that it is impossible to provide more works here as the tract in question is a dry area incapable of any useful works. It is possible that in the zamindari divisions of Podili and Darsi, the works may be supplemented by zamindari works in time of actual need.

4. Out of the total provision of Rs. 23,93,761, Rs. 12,59,355 represents large works. Of these, works for only Rs. 4,39,650 have been sanctioned. Road works represent a little more than 50 per cent. of the sanctioned works, the remainder being apportioned between irrigation and other works. The District Board Engineer however says that estimates for almost all the repair works provided in the programme are ready and that sanction for their execution can be obtained at a short notice.

RESOLUTION—dated 17th June 1897, No. 446.

The abstract of the programme of famine relief works for 1897–98 received from the Collector of Nellore will be submitted as revised by the Board for the information of Government.

2. The programme provides for—

	LAKHS.
Fifteen new irrigation works to cost	3·00
Repairs to existing irrigation works to cost	3·07
Fourteen thousand eight hundred and thirty feet of new roads to cost	0·12
Repairs to existing roads to cost	8·93
Works intended to improve the supply of drinking-water to cost ...	3·35
Other miscellaneous works including Rs. 80,800 likely to be advanced under the Land Improvement Loans Act to cost	5·17

The total provision made comes up to Rs. 23,93,761 and the works are calculated to provide employment for a period of three months for 21·7 per cent. of the population of the district. But the provision is not adequate in the taluks and divisions noted in the margin, as it can meet only from 12 to 19 per cent. of the population. The Board must admit that it is easier to find fault with the inadequacy of the programme, than to suggest how it may be amplified.

Ongole taluk	... ...	18·5 per cent.
Kanigiri ,,	... ...	12·88 ,,
Podili division	... ...	18·60 ,,
Darsi ,,	... ...	12·00 ,,
Atmakúru taluk	... ...	13·93 ,,

A great number of proposed new roads, which used some years ago to appear in the programme, and made up for all deficiencies, were removed therefrom, because it was admitted that the roads, if partially constructed by famine labour, could not possibly be completed and maintained by the resources at the disposal of the Local Boards.

In poor, backward proprietary tracts,—such as Podili, Darsi and Kanigiri,—it is difficult to suggest any suitable relief works of sufficient magnitude, other than the repair or construction of roads.

The Board is unable to do more than point out to the Collector the serious extent to which his programme is inadequate, and urge upon him the necessity of discovering some wider field for the employment of famine labour.

In Ongole, the provision made, though better than in the last year's programme, is still below the mark and needs further amplification. It is observed that in this taluk, three of the works stated to be out of repair under Public Works Department, and two in Atmakúru, are not provided for.

Kanigri taluk.	Darsi division.
Nellore ,,	Venkatagiri ,,
Podili division.	Polur ,,

Nor has any provision been made for land inprovements to be executed with the aid of State loans in any of the taluks or divisions noted in the margin.

3. At the end of statement A are shown five large works to cost approximately Rs. 66,512 and five small works to cost Rs. 12,000. These additional works might be utilized for famine relief, should necessity arise.

4. Estimates are stated to be ready for about 42 per cent. of the total provision exclusive of the land improvements for which no estimates are required. The Board, however, entertains serious doubt whether the estimates prepared for small works in proprietary estates (clearing prickly-pear, improving drinking-water supply, &c.) are in a shape fit to be submitted for sanction. Each village should be visited, and its estimates be checked and revised by a trustworthy officer, before sanction is asked for. Even then there will be great difficulty in carrying out the works under the rules of the Famine Code.

5. Of the amount provided for large works, estimates to the amount of Rupees 3,73,250 (about 35 per cent.) have been sanctioned, and are ready for execution. This provision is seriously inadequate and the Collector should use every effort to bring a large number of additional works, both large and small, under sanction with the least possible delay.

6. The following omissions and mistakes are noticed in the programme:—

Statement A.—(*a*) Totals for irrigation and for miscellaneous works are omitted.

(*b*) The taluk totals of small works are wrongly entered in the following cases:—

Taluk.	Column.	Figures entered.	Correct figures.
Kandukur	7	86,898	87,758
Do.	8	21,108	21,968
Kanigiri	7	55,210	59,660
Kavali	7	84,576	85,076

(*c*) The district total under column 7 is consequently 11,34,406 and not 11,29,456.

Statement B.—(*d*) The undermentioned amounts provided for new irrigation works in statements A and C are wrongly included also in this statement B which is only intended to show the expenditure proposed for the repair of the *existing* works and not for *new* works:—

	Rs.
Ongole taluk	20,000
Kanigiri „	57,450
Gudur „	38,500
Udayagiri „	28,975
Nellore „	1,43,000

It should therefore be deducted from this statement.

(*e*) The number of works shown as out of repair under Public Works Department in the Kanigiri as well as Nellore taluk is only 2, but the numbers for which repairs are proposed, are respectively 7 and 12. This discrepancy needs explanation. The revised statement promised will, it is hoped, explain the defects noticed above.

Statement C.—(*f*) In the Ongole taluk, the lengths of a new sanctioned road and of two small roads are shown in this statement as 12,680 and 1,412 feet, respectively, while they are shown in statement A as 2,680 and 2,150 feet. It is presumed that 12,680 and 2,150 are correct figures. In either case the estimated cost is high; if the works include masonry, the cost of the masonry should be deducted.

(*g*) In the Kanigiri taluk the number and the provision of small irrigation works are entered in this statement as 5 and 23,000, while the corresponding entries in statement A are 6 and 27,450.

(*h*) In Kavali taluk the grand total in column 25 against "small" is 67,076 and not 66,576.

(*i*) The number of persons provided for is—in Kandukur taluk 9,361 and not 9,246 against "small"; in Polur division 12,667 and not 12,000 against "not sanctioned"; in Kavali taluk 8,943 and not 8,877 against "small".

(*j*) The district total of the sum provided for the supply of drinking-water in column 19 is Rs. 3,65,291 and not Rs. 3,64,791.

7. The work of constructing underground channels in Venkatagiri must involve masonry, for which skilled labour will be required; the work would therefore seem to be unsuited for a famine relief work.

All the necessary corrections have been made in this office. The Collector will be requested to see that these mistakes are likewise corrected in his office copy and that they do not occur in future.

(True Copy and Extract.)

(Signed) L. E. BUCKLEY,
Famine Secretary.

To the Secretary to Government, Revenue Department.
„ Chief Engineer for Irrigation.
„ Collector of Nellore.

Bxd. A. F. Eccleston.
