Sir,

I have the honour to forward for the information of His Excellency the Governor in Council, and for favour of necessary action, the following extracts from the Annual Report on the condition of fort St. Angelo, Cananore, for 1897.

1. S.A.A. Magazine. The end windows should be barred as they are easily accessible.
2. Drainage- surface. The gratings at the outlet of drain running by the old magazine to the N.E. face require renewal.
3. Underground magazine in S.E. Place of arms. Accessible by well mouth. Too damp for powder, might be used for gun cotton dynamite &c. Water has been allowed to get into it for want of a proper cover

cover.

2. Item 1 above was brought to notice in this Office

I have the honour to be,
