Government of India, P.W.D.

Sir,

2. Under the rules of the College of Engineering, ^{Native} Engineer students are allowed a subsistence allowance of Rs.25 per mensem, and Engineer --- subordinate

subordinate students Rs. 20 per --
mensem during their year of ^{pr}acti-
cal training. Owing to the paucity of
establishment, the services of many
of these students have been utilised
in the supervision of relief works
with excellent results, and it will
be seen from the Proceedings that
application was made for the grant to
such men of a horse allowance of
Rs. 30 per mensem. As, however, the
Government of India is not in --
favour of the principle of grant-
ing horse allowance to students,
vide letter from the Home Depart-
ment No. 164 dated 20th June 1894,
this Government considered it pre-
ferable to grant to all students
employed on relief works an increase
of Rs. 30 per mensem to their sub-
sistence allowances, terming the
extra sum a "famine allowance" to
show that it was a special and --
temporary grant made during employ-
ment in the distressed districts.

3. Seeing that this Government,
under the powers vested in it, might
have appointed these men temporary
upper subordinates on any rates of
pay from Rs. 60 to Rs. 250 per mensem,
the plan of granting them a small
increase

increase to their subsistence allow-
ances was the most economical one
to adopt.
