BACK PAPERS.

FURTHER PAPERS.

With reference to your No. 2926k
of 15th January 1897 to the address of
the Executive Engineers of Kistna
Eastern and Northern Divisions,
(Copy of which was received from
the Engrs, K. N. D. with his
reply to the audit note on
accounts for Feb'y. '97) requesting
that effect may be given to the
interchange of the Residences of these
two Engrs on the arrival of
Mr J. S. Wilson, Engrs, Kistna
Eastern D. I have the honour to
point out that by this arrangement
Government will suffer a loss in
revenue of Rs 10/- per mensem as
follows:—
Rs 10/- per mensem of the Quarters

follows:—
The normal part of the quarters which were specially constructed for the One Engineer, Kohera North gr., was, in L.O. no 1383 W.D. 25. 5. 97, increased to Rs 80/- per mensem and the whole rent at this rate can be recovered from Captain N.

BACK PAPERS.

W. M. Ellis R.E. the present In-charge Engineer of Krishna Northern D.ⁿ if he occupies the Quarters, but as the Quarters are now occupied by J. S. Wilson Esq. the present In-charge Engineer of Krishna Eastern D.ⁿ under the arrangements ordered by you, only Rs 10/- per mensem (being 10% of his salary) can be recovered from him.

2. I would, therefore, request that the facts of the case resulting in this loss of revenue, may be fully reported to Government and approval obtained to the interchange of the Quarters as arranged by you, if this has not already been done.

No. 1084 K

15. 7. 97

Forwarded to the Chief Engineer, P.W.D., with the following remarks.

2. The In-charge Engineer, Krishna Northern D.ⁿ is in charge of the aicut and head works and the telephones at Seta nagaram and Raywada are connected with the telephone in the house now occupied by Captain Ellis

Ellis R.E.

3. If the In-charge Engineer Krishna Northern D.ⁿ is to occupy the house originally built for that D.ⁿ it will be necessary to remove the telephone to that house.

4. Moreover the Sub-Engineer has very frequent occasion to discuss matters with the In-charge Engineer, Krishna Northern D.ⁿ and it is most desirable that their residences should be close together.

5. In these circumstances it is hoped that the loss of revenue of Rs 10/- per mensem may be considered to be counterbalanced by the increased facilities for the conduct of business which are obtained by the arrangements now in force.

W. M. Ellis
In-charge Engineer,
for Sub-Engineer, Raywada
