GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers :—

From J. HANNAN, Esq., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated 19th February 1897, No. 100/W.

I have the honour to submit, herewith, an estimate amounting to Rs. 1,050 for strengthening ventilators in the latrines, Central Jail, Cannanore, and request you will be good enough to obtain the sanction of Government to the same as supplemental to the estimate of Rs. 4,650 for sinking a well in the Central Jail at Cannanore sanctioned in G.O., No. 3520 W., dated 8th December 1896.

The above estimate of Rs. 1,050 was prepared at the request of the Inspector-General of Prisons, with reference to G.O., No. 923 W., dated 14th March 1896, and was sanctioned by me.

The Examiner of Public Works Accounts now insists that this estimate is to be treated as supplemental to the one sanctioned by Government, as both the estimates are in connection with the improvements to the same building.

Memorandum No. 1914 C., dated 3rd April 1897.
Letter from the Superintending Engineer, IV Circle, dated 5th May 1897, No. 244/W.
Memorandum No. 290 D., dated 21st May 1897.
Letter from the Inspector-General of Prisons, dated 27th May 1897, No. 1330 C.
Memorandum No. 424 D., dated 3rd June 1897.

From the Executive Engineer, West Coast Division, to the Superintending Engineer, IV Circle, dated 30th June 1897, No. 382 S.E.

In reply to your No. 291/W.C. of 7th June 1897, I have the honour to state that the estimate was prepared at the request of the Inspector-General of Jails in his No. 888 C. of 4th September 1896.

2. The ventilators are of two sizes 12" x 6" high, and the object of the insertion of the flat iron bars is to prevent the pulling out of the vertical iron bars and the cutting through of the wooden frames.

3. Having once displaced the wooden frame, it would be easy to knock out one or two stones and make the hole large enough to crawl through.

No. 364/W.

Copy submitted to the Chief Engineer, Public Works Department, with reference to his memo. No. 424 D., dated 3rd June 1897.

5th July 1897.

(Signed) J. HANNAN,
Superintending Engineer, IV Circle.

ORDER—No. 2130 W., dated 4th August 1897.

The estimate amounting to Rs. 1,050 for strengthening the ventilators in the latrines of the Central Jail, Cannanore, is sanctioned as supplemental to the estimate of Rs. 4,650 for sinking a well in the same jail sanctioned in G.O., No. 3520 W., dated 8th December 1896.

2. This sanction has been registered as Provincial No. 31 W. of 1897-98 and classified as Civil Buildings—Original Works.

It is presumed that the
period during which a prisoner
would remain in a latrine
would be limited, and
that he would, all the while,
be within the hearing of a warder.
It seems therefore incredible that
he would have the opportunity
of pulling out bars and
cutting through frames, and
then knocking at one or two
slaves and finally making
good his escape. But the
strengthening of the ventilator
is proposed with no other object.
To spend Rs 1000 for such a
purpose would seem a waste
of money.

SIR,

Enclosures

In compliance with the request contained in Mr. Burlton's Memorandum No. 290 D dated 21st May 1897, I have the honour to furnish herewith a copy of this office letter No. C. 888, dated 4th September 1896, to the address of the Superintending Engineer IVth circle.

I have the honour to be
Sir,
your Most obed^t Servant,

A. G. Cardew
Insp^r Genl of Prisons.

Copy of letter No. C/888, dated 4th September 1896 to the Superintending Engineer, 4th Circle.

I have the honour to acknowledge the receipt of your letter No. 280/M, dated 20th July 1896, and in reply to state that, after examining the Wards of the Cannanore Central Jail I have arrived at the following conclusions, Viz:-

- (1). the ventilators high above the doors in the wards are, as you state, quite safe and nothing need be done.
- (2). the beams or struts of the roof trusses might be reached by a rope, and thus constitute a danger, which can be best remedied in the way you suggest i.e. by planking the openings or triangular spaces formed by the trusses with the roof.

(3). the ventilators in the latrines are quite unprotected, and require to be strengthened by iron-struts. 2. Of these works No. (3) is covered by the recent order of Government sanctioning the strengthening of all windows etc in Jails with iron struts, ^{and} I beg therefore, that an estimate for so strengthening the ventilators in the latrines of the Cannanore Central Jail may be prepared at an early date. Work No. (2) is not covered by any order of Government, and if it will cost more than Rs. 500 I will, on hearing from you, apply for the necessary sanction. It is suggested that cheap jungle wood might be used for this work, and, if so, the cost may be below Rs. 500.

S.A.W. 4548

The original estimate amounting to Rs 4,650 was sanctioned in G.O. No 3520 Wd 8th December 1896, for sinking a well in the Central jail at Cannanore and full provision was made for the work in the same G.O. But towards the close of the last official year the Supg. Engr. IV Circle surrendered a sum of Rs 3,500 from the grant of Rs 4,650.

The Supplemental estimate of Rs 1,050 is for strengthening the ~~windows~~ and ventilators, in the latrines of the Central jail. Provision for this work ~~has~~ been made in G.O. No 545 Wd 25-2-97.

Thus what we have to provide now is the sum of Rs 3,500 which the Supg. Engr. surrendered last March.

P. K. S.

Dr

Submitted that a copy of the I. G. of Prisons' letter will be obtained sooner & without expense by applying to that officer. His office is close by. Draft Memo submitted for approval.
Rm 19/5/97.

W.
This requisition is being asked for, because the necessity for this work is not apparent. It would be impossible to escape through the existing ventilator which is only 6" deep. So spending over Rs 1000 on this work seems waste of money.

Current No. 2033

Letter No. 100/11

Dated 14 February 1897

From the Superintending Engineer, IV Circle

NOTE BY TECHNICAL SECTION.

Name of work Strengthening ventilator in the latrines of the Central Jail at Cannanore.

Amount of estimate Rs 1050

The SE IV Circle, submits for sanction an estimate, amounting to Rs 1050, for strengthening ventilator in the latrines of the Central Jail at Cannanore, as supplemental to the estimate amounting to Rs 4650, for sinking a well in the Central Jail at Cannanore, sanctioned in G.O. No. 3520 W dated 8th Dec 1896.

The estimate provides for fixing a band of flat iron $3" \times \frac{3}{8}"$ round the ventilators and securing the same by nails to the wooden frame in order to prevent escape of air.

The work was called for by the S.C. of prisons.

The dates are fair & the estimate is in order, except that no plan of the ventilators has been submitted.

Plan of ventilators to be called for. Closed 19/2/97
