NOTES.

Reference to P. W. D. Code.

Chapter I, Para. 30.

1. All proposals for changes in the scales of permanent establishments must be accompanied by a statement in Part I of this form when the changes relate to the engineer or upper subordinate establishments and in other cases by a statement in Part II of this form.

2. The column headed "present scale" should invariably show the existing *sanctioned* scale (not the strength of the establishment as it actually stands at the time), and should be verified by the Examiner before the statements are forwarded to the sanctioning authority.

Hold recall

Take if like a short note showing the work this Estabt. will have to do.
A.G.H.
24.3.97

Sanction is accorded to the employment during 1897-98, of the undermentioned establt. under new Sewers. Divn, Ex. Engr Ootacamund drainage works:—

one Clerk on Rs 40 per mensem
one draftsman on Rs 60 — —
one Sub overseer on Rs 70 — —
Five peons on Rs 8 each — —

2. The Supdg Engr has applied for two Clerks, one on Rs 50 & one on Rs 25 per mensem, but the Govt. considers

~~C.A.W.~~
S.A.W.

that one clerk on Rs 40 per mensem is quite sufficient at present, as the office work will be very light.

3. This sanction has been registered as Provl. No. of 1896-97 & classified as Establt - Temporary.

From,

J. F. Somers Eve, Esq.,
Executive Engineer,
on Special Duty,

To,

The Superintending Engineer,
Fourth Circle.

Sir,

Encl: 1 In answer to your No. 191/M, dated 12th April 1897, I have the honor to submit a revised Proposition Statement. The delay has been caused firstly, because it was not certain whether an Upper Subordinate could be posted to me, and secondly whether the lake work was to be in my charge was unsettled, and I could not therefore arrange how works and investigation were to be carried out.

2. The above points being now settled, I have the honor to state that I require the establishment as noted in the Statement.

3. The first ~~five~~ four items are required for my office, and the last ~~three~~ two for the Supervisor, who will be engaged chiefly in investigating the

the proposed new drainage works.

4. I have not included the writer and peon of the Supervisor on the Lake work, as I presume that is already sanctioned.

I have the honor to be,
Sir,
Your most obedt. servant,
J. F. Somers-Eve
Executive Engineer,
on special duty.

G.O.	No.	Department.

No. 281.

Office of the Executive Engineer
on special duty,
Ootacamund, 30th June 1897.

From,

J. F. Somers Eve, Esq.,
Executive Engineer
on Special Duty,

To,

The Superintending Engineer,
Fourth Circle.

Sir,

With reference to your Endorsement No. 320, dated 24th June 1897 on Chief Engineer's Memorandum No. 2931C of 19th idem, I have the honor to state that the duties of the Establishment were indicated in my No. 184 of 4th June 1897 which formed the covering letter submitting the Proposition Statement. To enter into further details I now report that the 4 Peons and office messenger are required for my personal use in office & out. For the first two months I was without a subordinate of any sort, and in consequence myself did all levelling, surveying and setting out which necessitated their use.

Directly

Directly the lake work is fairly started and got into order, I intend taking up some part of the drainage investigations myself.

The clerk is required for usual office purposes. The draftsman is f employed and will be most certai lly in plan drawing and estimating. nly The Supervisor lately posted requires a peon and 5 Survey lascars for the Drainage Scheme investigation. He also looks after the execution of the work in hand, and is entitled to a writer. I am obtaining a man who knows something of drawing, which will be a great assistance to him, leaving him more time for field work.

With regard to the Clerk's pay I entered Rs 50 as his pay, because he was appointed on that prior to my arrival, vide Supg. Engineer's No. $\frac{148}{M}$ of 18th March 1897. It is somewhat difficult to obtain a clerk who knows

knows the routine of an Executive Engineer's office, as well as accounts, and who is also acclimatized to the hills, and able to stand the winter months up here. I believe the present one is the only man in the circle who combines these three qualifications. He served under Mr. de Winton up here 10 years ago on Rs 40 and it would be hard if he had not some advancement after that period.

His present permanent pay is Rs 30 in the Superintending Engineer's office, and if he was travelling up here would get an allowance of 9 annas per diem, which would bring his pay to nearly Rs 50.

I understand it is the custom for Executive Engineer's clerks to get an increase of pay of 2 grades when serving in the Nilgiris. It would be very inconvenient to change clerks now, and Rs 40 would be no inducement for him to remain here. He has acted several times in the 40 to 50 grade. Under the circumstances I respectfully request

he

he may be allowed to remain on Rs 50.

I have the honor to be,
Sir,
Your most obedt. servant,
J. F. Sm[illegible]
Executive Engineer
on Special Duty.
