* Exclusive of Rs. 1,236 transferred to the Gódávari delta system in G.O., No. 1135 I., dated 18th December 1897.

2. The Superintending Engineer, II Circle, has not furnished any explanation for the amount surrendered from the Kistna delta system. The surrender from the Cauvery delta system is due to the suspension of the improvements to the Coleroon Upper Anicut and to the presence of water in tanks and channels having retarded the progress of works. Owing to the orders restricting expenditure and to the want of subordinates during the best part of the working season, a sum of Rs. 57,520 has been given up from the Periyár project.

3. The Superintending Engineer, I Circle, in his letter No. 1696 G.D., dated 19th December 1897, applies for an additional grant of Rs. 25,880,* or Rs. 31,662 including establishment charges, chiefly for the work "fitting falling shutters to the crest of the Gódávari anicut." This sum may be appropriated from the amount surrendered from the Periyár project, the balance of the surrenders amounting to Rs. 75,503 being relinquished to the Government of India.

4. The sum of Rs. 1,590, or Rs. 1,967 including establishment and tools and plant charges, surrendered by the Superintending Engineer, V Circle, under "43. Minor Works and Navigation," may be held in reserve at the disposal of Government.

5. Separate proposals will be made for the approval of Government to meet the demand for an additional allotment of Rs. 16,178 required by the Superintending Engineer, VI Circle, under "42. Major Works—Working Expenses," Periyár project, to cover the cost of the Stoney's gate indented from England.
