Revised Estimate of Rs 4,145
for land compensation for
Chirivada channel - Kistna Eastern Delta

From the Super. Engineer, Second Circle. (H.E. No 2337 - K.E. dated 23.4.97).
No 311 Idy 24.12.97

Note by the Chief Engineer for Irrigation.

The Super. Engineer, Second Circle,
submits for sanction a revised esti-
mate for Rs 4,145 for compensation
for land required for excavating the
Chirivada channel, a distributary of the
More Canal, Kistna Eastern Delta, the
provision made for this item in the
estimate sanctioned in G.O. No 226-I dated
13 March 1893 having been found in-
sufficient. The excess incurred, Rs
1,656, is due to more land than esti-
mated for having been taken up
to supply the extra earth required for
raising the banks and to the value
of land having been fixed from local
inquiring and without the Revenue
Department having been consulted.

2. In these circumstances, the
revised estimate may be sanctioned
the excess being met from the saving
realized.

Copy of a letter st: 361 dated 9 Novr 1897
from J. S. Wilson Esq. Jr: Engineer Kistna
Eastern Division to the Suptg: Engineer 2^d Circle.

With reference to your st: 1952 K.E
16.10.97
I have the honor to report that when
the original estimate was first prepared
in 1893 the Revenue Department was not
consulted. The land being poor the
rate originally estimated was expected
to be sufficient, probably however owing
to the extension of irrigation the value
of land increased hence the excess.
2. The increase in area was due
to additional land having been
taken up to allow of side pits and
supply the extra earth required for
raising the banks &c.
