PUBLIC WORKS DEPARTMENT.

Irrigation.
Account.

Read—the following papers:—

From J. S. WILSON, Esq., Executive Engineer, Kistna Eastern division, to the Superintending Engineer, II Circle, dated 12th November 1897, No. 372.

With reference to your No. 2056 K.E., dated 28th October 1897, resubmitting its enclosures, I have the honour to report that, when the original estimates were first prepared in 1893, the Revenue Department was not consulted and that the rate was settled by enquiring as to the value of similar land in the locality.

2. The channels were excavated in the rainy season, and as the pits could not be excavated more than one foot deep, more land was required to make up for the reduction in depth for raising the banks, &c.

3. It was impossible to prepare the revised estimates before, as the statements had not then been received.

No. 2359 K.E.

Forwarded to the Chief Engineer for Irrigation, for favour of sanction of Government of India being obtained to the following revised estimates and comparative statements:—

Note by the Chief Engineer for Irrigation.

The rates for land compensation having been obtained from inquiry as to the value of similar land in the locality and without consulting the Revenue Department and owing to additional required for raising the banks, &c., excesses aggregating Rs. 2,204 were incurred on these items for which the Superintending Engineer, II Circle, submits revised estimates for sanction.

Copy of a letter No 372 dated 12 Nov 97
from J. S. Wilson Esquire, Ex: Engineer
Kistna Eastern Division to the Suptg: Engineer
II circle.

With reference to your No 2056 KE
28.10.97
resubmitting its enclosure I have the
honor to report that when the original
estimates were first prepared in 1893
the Revenue Department was not
consulted and that the rate was
settled by enquiring as to the value
of similar land in the locality.
2. The Channels were excavated
in the rainy season and as the pits
could not be excavated more than
1 foot deep, more land was required
to make up for the reduction in
depth for raising the banks &c.
3. It was impossible to prepare the
revised estimates before as the
statements had not then been received.
