R.K.

Ordinary course get an increase of Rs. 15 four years later.

Under the circumstances, it is recommended that the pay of the temporary post in this office be altered from Rs. 100-130 to Rs. 120. It is not usual to have progressive salaries on the temporary establishment. When the pay was originally fixed, it was not known which particular men would be selected to fill the appointment.

Submitted for orders.
In ordinary course, the draught-
man would get his first
increment. He is - after 4 years,
and his second - after
a similar interval. The
sanction of Govt would be
necessary if these periods
are curtailed. On this
subject, attention is invited
to Art. 167 (a) C.S.R.

I see no reason for an
increase of pay before the
time specified. If Madras
does not suit Lachman
Pillai there are others who
could gladly exchange with
him.
