(a) These are incomplete works of last year for which funds are required. (b) & (c) There are sufficient estimates under these heads for which additional funds have been applied for by Sub-divisional officer.
(d) There are no sufficient estimates under these heads to admit of the allotment being spent fully ; hence the surrenders.

Forwarded to the Chief Engineer for Irrigation for sanction if approved.

(Signed) J. C. LARMINIE,
Superintending Engineer, III Circle.

17th January 1898.

From H. E. CLERK, Esq., Executive Engineer, Bellary division, to the Superintending Engineer, III Circle, dated 14th January 1898, No. 368.

In your register No. 15 of 1897–98, an estimate for Rs. 1,530 for repairs to Kuppinekena tank was sanctioned. The work being a minor irrigation work, funds to meet the outlay thereon will have to be specially obtained. The expenditure on the work to end of November 1897 is Rs. 487, and I anticipate that a sum of Rs. 800 will be spent during the current official year.

2. A revised estimate for Rs. 2,670 for the repair work is under check in this office, and will be submitted for sanction in the regular course. In the meantime, I have the honour to request that very early orders sanctioning the allotment of Rs. 800 may be obtained and communicated to me.

No. 5561 I.

Submitted to the Chief Engineer for Irrigation, with a request that he will be good enough to sanction the allotment of Rs. 800 from the Minor works grants at his disposal.

20th January 1898.

(Signed) J. C. LARMINIE,
Supg. Engineer, III Circle.

P. W. D. Form No. 41H.

NOTES.

Reference to P. W. D. Code,

Chapter XV, section vi, para. 199.

1. This form should be used by the Executive Engineer or the local Government in any of the following cases :—

(*a*).—When a grant, or an addition to an existing grant, is required for carrying on a sanctioned major work.

(*b*).—When a grant for a work is found to be in excess of requirements, and it is proposed to resign it, either wholly or in part.

(*c*).—When it is proposed to utilize the grant for one work upon some other.

2. Either of the columns for "Proposed new grant" or for "Proposed reduction," or both, may be used as required.

3. If it happens that the grant already allowed has been reduced, the entry in the column "Existing grant for current year" would of course be the amount less such reduction.

4. In the case of Irrigation works, the entries in the column "Departmental and service head" should show distinctly whether the proposed re-appropriation is debitable to Capital or Revenue, and the entries in the column "Works" should be so arranged as to show the project to the Capital or Revenue account of which the charge is debitable, and the class of service to which the charge is debitable, thus :—

________________PROJECT.

(1).—HEAD WORKS—

(*B*). Land

(*K*). Buildings

In cases of Productive public works, the fact of their being so should be noted against the entries.

5. It being of the utmost importance that early intimation of possible lapses, or of excesses, in outlay on works should be communicated to the Government, a close watch should be maintained on the progress of all works, and this form employed the moment the facts are sufficiently known.

6. Applications for re-appropriations which require the sanction of the Government of India should be submitted by the local Government in duplicate; applications by Executive Engineers should be submitted through the Superintending Engineers of their Circles.
