No. 46 I.

Note by the Chief Engineer for Irrigation.

In the communications marginally noted, the Superintending Engineers, I, II, V and VI Circles, report the modifications required in the existing grants for the current year under "49. Capital Expenditure not charged to Revenue," "42. Major Works (Working Expenses)" and "43. Minor Works and Navigation."

From Supg. Engr., I Circle, 4th Feb. 1898, No. 63 C.

* Exclusive of Rs. 400 withdrawn in G.O., No. 22 A./I., dated 7th January 1898.

3. 49. *Capital Expenditure not charged to Revenue.*—The amount surrendered from the Gódávari delta system is from the provision for compensation for land, which is in excess of requirements. The surrender from the Periyár project is the sum realized from the sale of tools to the Travancore Durbar. The total amount surrendered, viz., Rs. 6,600, may be relinquished to the Government of India.

4. 42. *Major Works (Working Expenses).*—The Superintending Engineer, VI Circle, applies for an additional allotment of Rs. 100, or Rs. 123 including establishment charges, for expenditure on the Srivaikuntam anicut system under "Maintenance and repairs." This sum may be met from the amount of Rs. 1,230 not required for

the Cauvery delta system, the balance of Rs. 1,107 being appropriated to the Periyár project to meet in part the sum of Rupees 6,096* still to be provided for that project. As there are no more funds available, the additional allotment of Rs. 200 applied for by the Superintending Engineer, II Circle, for the Kistna Western division under "42. Tools and plant" cannot be provided.

5. 43. *Minor Works and Navigation—Provincial and Local.*—The net surrenders under these heads aggregate Rs. 43,118 and Rs. 1,130, respectively, as shown in the following statement :—

6. The surrenders proposed from the existing grants under *Capital Account* are due to land required for the extension of the Meenjur branch channel, Vulluru anicut system, not having yet been made over to this department, and to no more payments for compensation for land under the Lower Coleroon anicut system for the old Coleroon drain being anticipated during the remaining period of the current year.

7. Under *Revenue Account,* the want of a sufficient number of sanctioned estimates to work out the grants has necessitated the surrenders.

8. *Minor Works for which neither Capital nor Revenue Accounts are kept.*—The surrenders under this head are chiefly due to the progress of works in the Trichinopoly division having been retarded owing to tanks having been full in the working season,

* *Major Work.*—Improvements to Puliyur-Periyakulam tank and channel.
† *Do.* .—Raising the flood bank of the Kistna river right bank from 44 to 52½ miles.

The additional funds applied for for the Munyeru project are required for the completion of the main channel and its distributaries in time to admit of water being let out for irrigation in July next, and those asked for under agricultural works—repairs, are for sectioning and completing a diversion in the Kistna Eastern division.

10. The total additional grant required, viz., Rs. 21,801, may be appropriated from the total surrender of Rs. 43,118 shown in paragraph 5 above. The balance, together with the sum of Rs. 2,958, or Rs. 3,683 including establishment and tools and plant charges, from the reserve at the disposal of Government, aggregating Rs. 25,000, may be surrendered to the Financial Department.

11. A memorandum of altered grants as prescribed in G.O., No. 777, Financial, dated 14th November 1896, communicated with G.O., No. 3665 W., dated 9th December 1896, is appended.

12. *Local Irrigation Cess Fund.*—The net amount of Rs. 1,130 not required for expenditure under this head during the current year, owing to want of estimates, may be relinquished to the Revenue Department.

ORDER—No. $\frac{129}{A}$ I., dated 15th February 1898.

The modifications of allotments proposed by the Chief Engineer for Irrigation in the foregoing note are sanctioned.

2. Rs. 25,000 under "43. Provincial" and Rs. 1,130 under "43. Local Irrigation Cess Fund" will be surrendered to the Financial and Revenue Departments, respectively.

3. The following deferred telegrams will be sent:—

"To the Joint Secretary to the Government of India, Public Works Department."

"Please accept further surrender of Rs. 6,600 under 49. Gódávari Rs. 1,500. Cauvery Rs. 738. Srívaikuntam Rs. 123 and Periyár Rs. 4,239. Please note current year's revised estimate under 43. Provincial has been reduced by Rs. 25,000."

To the Superintending Engineer, II Circle.

"Your No. 401 K N., ninth instant. Additional funds Rs. 8,000 for Munyeru project, sanctioned."

4. Ordered that a copy of these proceedings be forwarded to the Government of India for information.

Copy of letter from Captn W. M. Ellis R.E. Executive Engineer Kistna Northern Division, to the Superinten ing Engineer, 2nd Circle, No. 691 Dd. 26.1

I have just learned from the Sub. Division Officer Guntur that he will be unable to spend the full grants for Tan Restoration works. On looking into the matter, I find that with the works in hand, it is impossible to do so, there not being unspent balances of sanctioned estimates to such an amount as to rend the spending of the whole grant practicabl I therefore wish to surrender Rs 2,000/-/-

SE's No 2395KN / 28.11.97

I asked for and obtained an increased grant of Rs 3,500/. for these works, the Sub Dn. Officer having reported that this was the Sum he required to complete the repairs in progress and giving full details. On looking up these details now, I find that a double entry of Rs 1500/. was made in the account, which escaped my notice in applying for further grants asked for.

In

In addition, the necessity for revising certain estimates for the following tanks has caused delays in work which account for the Rs 500/- additional now surrendered

1. This form should be used by the Executive Engineer in any of the following cases :—

(*a*).—When he requires a grant, or an addition to an existing grant, is required for carrying on a sanctioned major work.

(*b*).—When he is unable to utilize the grant at his disposal for any work and wishes to resign it, either wholly or in part.

(*c*).—When he wishes to utilize the grant for one work upon some other.

2. Either of the columns for "Proposed new grant" or for "Proposed reduction," or both, may be used as required.

3. If it happens that the grant already allowed has been reduced, the entry in the column "Existing grant for the current year" would of course be the amount less such reduction.

4. In the case of Irrigation works, the entries in the column "Departmental and service head" should show distinctly whether the proposed re-appropriation is debitable to Capital or Revenue, and the entries in the column "Works" should be so arranged as to show the project to the Capital or Revenue account of which the charge is debitable, and the class of service to which the charge is debitable, thus :—

__________ PROJECT.

(1).—HEAD WORKS—
  (*B*). Land.
  (*K*). Buildings.

In cases of Productive public works, the fact of their being so should be noted against the entries.

5. It being of the utmost importance that early intimation of possible lapses, or of excesses, in outlay on works should be communicated to the Government, a close watch should be maintained on the progress of all works by executive officers, and this form employed the moment the facts are sufficiently known.

6. Applications for re-appropriations which require the sanction of the Government of India should be submitted by the local Government in duplicate; applications by Executive Engineers should be submitted through the Superintending Engineers of their Circles.

Copy of letter from Capt. W. M. Ellis R.E. Executive Engineer, Kistna Northern Division to the Superintending Engineer, 2nd Circle, No. 712 S.E., dated 4th February/98.

I have the honour to herewith submit an application for an additional grant of Rs: 8,000/- for works Munyeru Project, under the following circumstances.

The grant given is now wholly expended, that is, liabilities are already incurred to the full amount and the following works have to be carried on, if full advantage is to be taken of the large sums, already spent.

Rs
viz: Completion of distibutaries and drops up to 20 miles 6 furlongs } 3000
Extension of channel 5 miles to take in the Kondur, Ramireddipalli Magella and Somavaram villages } 4000
The area, under these, is nearly 1/4th

of

of the whole aspect of the project and unless I can go on with the works now, I cannot have the main channel and its distributaries ready to give water next July. I would ask in view of the very large returns of Revenue to be looked for, from taking advantage of the full working season, which now commences as the fields are just cleared of crops, that the extra grant asked for, be placed at my disposal.

I may add, that excavation can now be done cheaper, than in April and May. If the full sum asked for cannot be granted, I request something may be given and that I be informed of the same by wire.

EXPLANATION OF NECESSITY FOR RE-APPROPRIATION.

A. The grant applied for is partly required for meeting the cost of measuring rods and partly completing Estimates sanctioned under the head.

(B + C.) The amount of work done under these heads has exceeded the grant owing to a mistake of Mr. Lutman late Eastern Sub-Dl. Officer who thought he had passed on orders to stop work to the Section Officers when part of the grant of this Division was taken away to the Kistna Northern Division. Works being in full swing at the time the excess occurred before the error was detected.

2.- (Item). As it was proposed to spend the allotment on materials alone Rs 1000 is considered sufficient to meet the demand till 31st March 1898. Hence the surrender.

(Item 2). Surrendered as Contingencies in the Estimate are not required.

(Item 3). Additional grant is necessary.

(Item 4). Owing to standing crops no further outlay can now be incurred on Peruvalai channel maintenance Estimate for which viz Rs 1640 (Contribution work) has not as yet been sanctioned.

(Item 5). Surrendered for want of sufficient number of sanctioned Estimates in hand to work out the grant. An Estimate prepared for improvements to the Nandyar channel has to be revised.

(Items 6 & 7.) Surrendered as there are not sufficient number of sanctioned Estimates.

(Item 8). A portion of the contribution has been recovered and the balance is not likely to be recovered within the official year. Sanction for the completion of the work from Irrigation funds in anticipation of the collection of the balance of contribution was applied for in this Office No 573 T.R. / 8-7-97. As the work has been completed and payments made, additional grant applied for is necessary.

K387 N/97 given to D.E. for G. S. stationery

(Item 9.) Some of the tanks in Perambalore Taluq having been full during the working season, works could not be finally completed and measured up. It will be too

late

late to work out the balance of grant. Hence the surrender.

(Item 10). Surrendered as no Estimates in hand and none could be framed until the channels are closed.

(Item 11). Additional amount applied for is necessary to cover outlay already incurred.

(Item 12) Surrendered as some of the works could not be finished owing to standing crops.

(Item 13). Amount applied for is required to cover outlay incurred.
