Note for His Excellency.

*The question of fees in a
particular case was decided
in 1870 was 18 April 1898.
It is now proposed to make the
rule general, and to delegate
the power of sanction under
Rule 3 to the Sanitary Engineer.*

SUBJECT.

Requesting sanction of Government
for the survey of the boiler belong-
ing to the Buckingham Canal dredger
by the Boiler Inspector and suggest-
ing that he may be empowered to
permit the Inspector to survey Govt.
boilers not coming within the provi-
sions of the Act III of 1895.

ENCLOSURE.

OFFICE OF THE INSPECTOR OF
STEAM-BOILERS AND PRIME-MOVERS,

Madras, 27th April 1898.

From

H. T. WALTERS, Esq.,

INSPECTOR OF STEAM-BOILERS

AND PRIME-MOVERS,

Madras,

To

J. A. Jones. Esq., M.S.C.E., F.R.S.E.,
Sanitary Engineer to Government
Fort Saint George

SIR,

Having received a request from the
General Superintendent of the
Public Works Workshops to examine
a 12 Horse power boiler situated at the
aforesaid workshop, I have the
honor to inform you that arrange-
ments were made by me to survey
the boiler on Saturday the 18th of
April 1898 and on my arrival to
carry out the survey I was informed
by the General Superintendent that
the boiler was lying on side of the
Buckingham Canal and belonged to
the Canal dredger P.W. Department
V Circle. I informed the General
Superintendent that the boiler in
question did not come within the
limits of the Madras Steam-boilers
and Prime-movers Act III of 1893, and
also the sanction of the Madras Govt.
was necessary; but as the General
Superintendent

Superintendent wished to replace boiler in obrolger and at his request I made a survey (114) noted down the defects and took the necessary dimensions; but I have not given a report as to its condition or pressure it can safely work. As this is kept in abeyance vide rules as published in the Fort Saint George Gazette of 26th January 1897, I now request you will be good enough to obtain sanction from Government for me to carry out the work and also be good enough to let me know if the aforesaid boiler shall come under the Boiler Inspection Act III of 1893.

I have the honor to be,
Sir,
your most obedient servant

H. J. Walters
Inspector of Steam Boilers
& Prime-movers

No. 872

GOVERNMENT OF MADRAS,

OFFICE OF SANITARY ENGINEER,

Fort St. George, 27th April 1898

Recd 28th April 1898

From

J. A. JONES, Esq., MEM. INST. C.E., F.R.S.E.,

SANITARY ENGINEER TO GOVERNMENT,

To

The Secretary to Government,

Public Works Department.

SIR,

With reference to a letter No. 123 of 27th April 1898 from the Inspector of Steam-Boilers and Prime-Movers, Madras, I have the honor to request the sanction of Government for the examination in question and as it is a Government Boiler which is required to be surveyed, I have given Mr. Walters permission to send the Superintendent, Public Works Stores, a report pending the sanction of Government.

2. The question of the fee to be paid requires settlement. As the work is beyond the scope of the Act and of the Inspector's duties, I presume that any fee paid or a portion of it should go to the Inspector and I suggest that the fee in this instance be the same as would be charged for a boiler coming within the provisions of the Act.

3. It would save references of this kind if powers were given me to allow the Inspector to inspect Government Boilers not coming within the provisions of the Act, when a requisition is made by Government Officers and if the amount of fee chargeable and the proportion payable to the

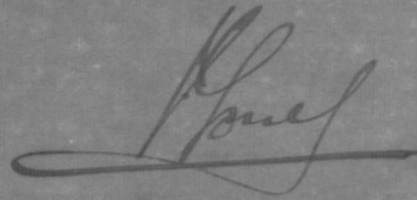

Inspector

Inspector were determined once for all.

I have the honor to be,

Sir,

Your most obedient servant,

Sanitary Engineer to Govt.
