G.O., No. 1316

DATED 23 May 88

[Despatch Abstract.]

Register of Miscellaneous Properties, Approving
the Engineer's proposals for the maintenance
by the Engineer of a — from which Govt
can look for revenue.

250/12

23.5.98

Approving the Examiner's proposals for the maintenance by Executive Engineers of a — from which Government can look for revenue.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following paper:—

From E. A. DENNYS, Esq., Examiner of Public Works Accounts, Madras and Coorg, to the Joint Secretary to Government, Public Works Department, Irrigation Branch, dated Madras, 25th April 1898, No. 520 A/A.

With reference to paragraph 3 of my letter, No. 478 A/A., dated the 18th instant, to the Secretary to Government, Public Works Department, Madras, regarding accounts inspections of divisional offices, I have the honour to report that, among other things, the recent inspections of divisional offices by Mr. A. R. Käiberer, Deputy Examiner, disclosed the fact that in most of the divisions there is no systematic record maintained of the miscellaneous properties of Government from which revenue can be looked for, from year to year, and the amounts actually realised.

2. I accordingly propose that the Executive Engineers concerned be instructed to open out and maintain a register in the form attached—to be modified to suit local requirements if necessary. The manner of keeping the register is explained in the notes on the form.

3. I am of opinion that some such register is very necessary, so that the Executive Engineers may be in a position to know whether revenue is being realised from all the miscellaneous properties belonging to Government, and, if not, the reason for the non-recovery.

From the Joint Secretary to Government, Public Works Department, Irrigation Branch,
dated 7th May 1898, No. 144.

ORDER—No. 1316 W., dated 23rd May 1898.

The Examiner's proposals are approved.

(True Extract.)

Under Secretary to Government.

To the Chief Engineer for Irrigation.
 „ Superintending Engineers.
 „ the Consulting Architect to Government.

NOTES.

This register is intended to serve as a systematic record of the miscellaneous properties of Government from which revenue can be looked for from year to year such as "fishery," "grass," "produce of trees, &c.," and the revenue realised from these sources.

2. The locality for the purpose of leasing fisheries, grass, trees, &c., should, as far as possible, be the same from year to year, and should define clearly the "plot of land, &c., to be leased."

3. If no revenue is realised during one year, the reason should be given in the column of remarks.
