READ—the following papers :—

From the Superintending Engineer, V Circle, dated 4th February 1898, No. 70 W.

From Colonel C. C. Rawson, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department (through the Examiner, Public Works Accounts, Madras), dated Chepâk, 29th March 1898, No. 218 W.

Referring to your Memo. No. 1014 C., dated 19th February 1898, I have the honour to submit herewith the proposition statement therein called for showing the existing scale of establishments of the Chingleput and late Buckingham Canal division and the establishment proposed to be retained for the combined division, and to request that sanction of Government may be obtained thereto.

2. I concur with the opinion of Mr. Davidson that the pay of the storekeeper of the newly constituted division should be raised to Rs. 30, as he has to take care of and account for a much larger quantity of tools and plant than he had while as storekeeper of the Chingleput division alone.

3. I enclose, for your information, copy of letter No. 4018, dated 21st March 1898, from the Executive Engineer, Chingleput, bearing on the subject.

ENCLOSURES.

From J. P. DAVIDSON, Esq., Executive Engineer, Chingleput Division, to the Superintending Engineer, V Circle, dated 21st March 1898, No. 4018.

With reference to Chief Engineer's Memo., No. 1014 C., dated 19th February 1898, communicated with your No. 113 C. N., dated 25th February 1898, I have the honour to submit herewith a proposition statement in the prescribed form showing the establishment proposed to be retained for this division and to request that sanction of Government may be obtained thereto.

2. The head clerk of the old Chingleput division has lately been transferred to the workshops, but in other respects the strength of the establishment is as described in my letter No. 3295, dated 27th January 1898.

3. I would also draw attention to the pay of the storekeeper, the pay in the Chingleput division (old) was Rs. 20, while the pay of the Buckingham Canal division was Rs. 30. I am of opinion that the pay of the storekeeper of the newly constituted division might well be put at Rs. 30, and I have entered this sum in the proposition statement.

4. I have in this statement allowed 1 first class and 1 second class draftsman, whereas there are at present actually 2 first class draftsmen in the office. The extra first class one of the Buckingham Canal can, no doubt, be absorbed later on into some other division, and a second class man posted to this division.

ORDER—No. 1400 W., dated 3rd June 1898.

The proposition statement for the establishment required for the combined Chingleput and Buckingham Canal division, submitted by the Superintending Engineer with his letter recorded above, provides for the amalgamated Divisional office, 8 clerks, 4 draftsmen and 3 peons under office establishment, and 1 storekeeper and 5 peons under petty, — a staff which is in excess of that sanctioned for any other division in the Presidency. After giving due weight to the representations of both the Executive and Superintending Engineers, His Excellency the Governor in Council considers that 8 clerks, 3 draftsmen and 2 peons under office establishment, and 1 storekeeper and 3 peons under petty, are a liberal allowance, and that sanction to the retention of 2 clerks and 1 draftsman under temporary establishment approved in previous years is no longer necessary.

2. The Government is of opinion that 3 Sub-Overseers will be sufficient for all requirements, work in the Buckingham canal being much reduced and that 1 Sub-Overseer, 1st grade, is unnecessary.

3. The existing sub-divisional conservancy and toll establishments will remain unaltered.

4. The corrections pointed out by the Examiner have been carried out in the column "Proposed scale" also.

5. Until the supernumerary hands are absorbed into other divisions, the services of such men should be utilized wherever they can be employed in the place of temporary establishment.

6. The sanction accorded in paragraph 1 has been registered as Provincial No. 20 W. of 1898-99 and classified as Establishment — Permanent.

It will be seen that the establishment applied for is ~~clearly~~ in excess of that sanctioned for any other Division in the Presidency, and that the scale allowed ~~will~~ Should meet the requirements of the new Division. It is also proposed to withhold sanction to the retention of 2 clerks and 1 Draftsman sanctioned in previous years under temporary establishment.

2. The increased rate of pay for the storekeeper, viz Rs 30, may be allowed, for he has to account for the stores of the two Divisions, and ~~to~~ the pay of the storekeeper of the B.C Dn was Rs 30.

3 The existing Sub divisional Conservancy and Toll establishments remain unaltered

4 A para is added in the draft order asking the S.E to employ the supernumerary establishment, wherever possible, in the place of ~~the~~ the temporary establishment

5. The Buckingham Canal, before amalgamation, was a 1st class Divn & ~~the~~ its circumstances are of a special character

Note.

The establishment proposed is necessary. The construction of Capital Works on the Buckingham Canal is finished, but several questions connected with land compensation & demarcation remain to be settled, and as the Canal passes through no less than 4 districts (Chingleput, Madras, Nellore, Kistna) the correspondence with so many different Revenue Officers is heavy. Secondly, about Rs 1,10,000 per annum is actually collected in hard cash, and paid into the Office, and entails a good deal of reference of various kinds.

2. In a year or two, when the Ex. Engr. reports that everything connected with the Capital estimate of the Project has been settled, the Establishment can be further reduced. At present, it would be unwise to reduce it below what the G.O. provides for.

To

Dr.

Superintending Engineer's No. 218 W dated 29th March 1898.

Forwarded to Dr with the necessary certificate and with the following remarks:—

1. The financial value of the progressive appointments in Column "Present Scale" has not been correctly entered. Necessary corrections have been made by this office.

2. The orders sanctioning present establishment detailed in Column "Present Scale" have been omitted in several places. Necessary omissions have been supplied.

3. On pages, 2 & 3 of the

proposition

proposition statement the following establishment has been entered for detached officers and Overseers.

7 clerks 5th class 1st Grade Rs 15 to 20

6 Peons on Rs 6 each

As the establishment for detached officers and Overseers is not fixed but always fluctuating, a definite scale cannot be determined for employment under them. These entries have therefore been scored out.

4. The Lower Subordinate establishment has been sanctioned by circles the figures in "Present Scale" represents the actuals for the 2 Divisions.

5. When sanctioning the revised scale a copy of the proposition statement may be ~~furnished~~ forwarded to this office.

From J. P. Davidson Esquire, Executive Engineer, Chingleput Division, to the Supdt: Engineer V Circle, dated 21-3-98
No. 4018:—

With reference to Chief Engineer's Memo: No: 1014 C d/19-2-98, communicated with your No: 113 C.E. d/25-2-98, I have the honour to submit herewith a proposition statement in the prescribed form shewing the establishment proposed to be retained for this Division and to request that sanction of Government may be obtained thereto.

2. The Head clerk of the old Chingleput Division has lately been transferred to the Workshops, but in other respects the strength of the establishment is as described in my letter No: 3295 d/27-1-98.

3. I would also draw attention to the pay of the store-keeper. The pay in the Chingleput Division (old) was ₨ 20, while the pay of the Buckingham Canal Division was ₨ 30. I am of opinion

that

that the pay of the store-keeper of the newly constituted division might well be put at ₨30 and I have entered this sum in the proposition statement.

4. I have in this statement allowed 1 first class and 1 second class draftsman, whereas there are at present actually 2 first class draftsmen in the Office. The extra first class, one of the Buckingham Canal can, no doubt, be absorbed later on into some other division, and a second class man posted to this division.

SIR,

Enclosures 2

Referring to your Memo: No: 1014 C of 19th February 1898, I have the honour to submit herewith the proposition statements therein called for shewing the existing scale of Establishments of the Chingleput and late Buckingham Canal Division and the Establishment proposed to be retained for the combined division and to request that sanction of Government may be obtained thereto.

2. I concur with the opinion of Mr. Davidson that the pay of the Storekeeper of the newly constituted division should be raised to Rs 30, as he has to take care of and account for

S.A.W.

In his letter No. 3295 d/ 27th January 1898 to the address of the S.E. V circle, Mr Davidson states that he has consulted D.W. on this subject and that D.W. is of opinion that the establishment applied for should be sanctioned in toto. I have compared the establt proposed with that sanctioned for other Special Divisions in the Presidency and drawn up a scale which is at least equal to that sanctioned for any other division. This file may therefore be submitted to D.W. and he may perhaps be able to bring his personal knowledge to bear on the question and be in a position to say whether the scale allowed is ~~all right~~ sufficient.

P.K.S.
18/5/98.

D.W.

Before accepting sanction to the establt. applied for for the amalgamated Chingleput & B. Canal Dns, I directed the Budget clerk to compare the establt. asked for with that allowed for other really heavy divisions, such as those in the I & II circles. It will be seen that if the establt. asked for

pg. /n

for the new Chingleput D. is sanctioned in toto, it will be greater than that in any other division in the Presidency —

The draft G.O. now submitted allows a very liberal staff, but the question is remitted for your consideration, before submission to W & to His Exc.

Ch

Why have you struck out one of the sub overseers? Apparently of the 7 asked for 3 are in the B. Canal & 4 are in Chingleput. Can any of the former be spared?

24.5.98

W

I think the staff of Sub-Overseers on the Buckingham Canal can be reduced by one, the clearances now to be done being small (except in bad seasons) & my idea was to let the Ex. Eng. distribute the 3 sanctioned as he likes.
