From M. R. Ry. N. Ratnasabapati Pillai Avgl., Rai Sahib, B.A, B.C.E, Executive Engineer Negapatam, to the Supty: Engineer, V Circle dated 7 April 1898, No. 123 S.E.

With reference to your No: 96 R.G d/31-3-98, I have the honour to inform you that from the enclosed sample plan and statement of Odamboghyar, it will be seen how many the masonry works built across different irrigation channels are and how their relative levels have to be ascertained to decide how far the drainage is effective.

The Superintending Engineer, Special duty, states that the maps for other rivers of my division have also been since completed with the necessary statistics and that copies may be taken for my use. As I am of opinion that the improvements to the Minor Distributaries should be done in the regular division, I have considered it necessary to make this provision for surveyors.

The work will of course have to be supplemented by check levels taken by the Overseers and Sub-Divisional Officers.
