In your list-making
return of stores under
provision up to 31st
March 1878, last
item, the inside
height of the revolving
dome for the Koda-
Kond Observatory
is given as 6 feet.
You however to
invite your attention
to the visit under
forwarded with my
letter no 725 W of 17th

note. The Bi-monthly
return was despatched
from London on 18th April,
while the revised return
was sent from here on
17th March. The latter
had probably not been
looked into when the
bi-monthly return was
under preparation. The
latter notes only the office
letter of 4.8.97 of 24.2.98.
The height must have been
known at the time the revised
return was looked into, but
it is just as well to bring the
matter to the notice of the D. S. of Stores. - C.S.
