to have a temporary draftsman specially  
for the work. He also states that the  
estimate for the Yercaud Ghat road will  
be submitted in June, but that the  
services of the draftsman will be required  
on the whole for a period of 6 months to  
prepare plans and estimates to work  
up the current year's grant. The P.E.  
considers that, with the assistance of  
a temporary hand for 2 months, the two per-  
manent draftsmen should have no  
difficulty in clearing off areas. <sup>but I</sup>  
~~do not think a man will be found~~  
~~therefore prepared to sanction the~~

~~he is short a period of 2 months~~

Letter No 183. S. E. dated 8<sup>th</sup> May  
1898 from the Executive Engineer Salem  
Division to the Superintending Engineer  
Fourth Circle.

With reference to your letter No  
<sup>113</sup><sub>S.L.</sub> dated 26<sup>th</sup> ultimo, I have the honor  
to explain that up to the present the two  
permanent draftsmen have been  
plotting the levels and surveys of the  
Jercand Ghat road in addition to  
their own duties, but I find that the  
ordinary work in this Division is  
getting into arrears, and that is abso-  
lutely necessary to have a temporary  
draftsman specially for the work. I  
have several estimates and papers de-  
layed for want of an extra hand  
in the drawing branch.

2. I hope to submit the estimate  
for Jercand Ghat Road in time,  
and in that case the draftsman  
will only be required for two months  
for

for this work, but it is just possible  
that I shall require time for a few  
months longer to prepare plans and  
estimates to work up the current year's  
grant. I am very short of irrigation  
estimates, probably owing to my prede-  
cessor being short handed last  
year.

Copy submitted to the Chief  
Engineer F. W. D. for favor of sanction.  
The undersigned considers that the temporary  
drafterman should only be appointed for 2 months,  
with this assistance the two permanent draftsmen  
should have no difficulty in clearing off arrears.
