READ the following paper :—

From the Inspector-General of Prisons, Ootacamund, No. 2290 dated 13th May 1898:-

In 1893 the South Indian Railway Company constructed a tramway from Tanjore to the Nalgumodu Gravel-quarries 4 miles on the road to Vallam. This Tramway passed through the south east corner of the Jail garden cutting off a triangular piece measuring 9548 square feet, and a compensation of Rs.300 was paid by the South Indian Railway Company for the loss caused.

2. The Superintendent of the District Jail, Tanjore, now reports that owing to this triangular piece of ground being separated from the Jail grounds by the railway line it is inconvenient to cultivate it and he recommends that it be sold. The District Board's Engineer has made an offer of Rs.200 for the land, subject to the Board's confirmation.

3. I have seen the land and agree with the Superintendent that it may be sold if it is of no use now to the Jail, and there is ample garden-land without it. I would, therefore, recommend that the Superintendent may be authorised to dispose of it on the best terms he can obtain, subject to a minimum of Rs.200.
