GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

Irrigation.

READ—the following paper :—

Circular memorandum from the Inspector-General of Irrigation, to the Joint Secretary to the Government of Madras, Public Works Department, Irrigation Branch, dated Simla, 8th November 1897, No. 9 I.G.

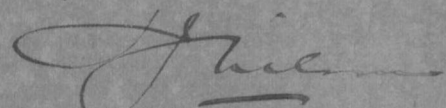

The Inspector-General understands that papers on hydraulic and other technical subjects have from time to time been published by the various Provincial Secretariats. As the practical usefulness of such papers would be much extended were they to be made available for distribution in Provinces other than those in which they originated, the Inspector-General requests that, with the permission of the heads of the various Local Governments and Administrations, as many copies as can be spared of such papers as have already been published may be forwarded for his information. In future, 50 copies of each paper should also be forwarded to the Inspector-General for distribution to selected officers. (1)

The Inspector-General also desires that he may be furnished with a list of such papers as have been published, even though spare copies may not be available. (2) (3)

ORDER—No. 1044 I., dated 25th November 1897.

Communicated to the Chief Engineer for Irrigation for report.

(True Extract.)

Under Secretary to Government,
