GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Irrigation.

Read—the following papers:—

From T. CHICHELE-PLOWDEN, Esq., C.S.I., Resident at Hyderabad, to the Joint Secretary to the Government of Madras, Public Works Department, Irrigation Branch, dated Hyderabad, 9th December 1897, No. 6889.

I have the honour to invite your attention to my letter, No. 5372, dated the 27th September 1897, regarding the supply of certain other tanks with water from the Lingasamudram tank in the Gódávari district.

2. I shall be glad to be favoured, at an early date, with the designs referred to in paragraph 2 of my letter quoted above for transmission to his Highness' Government.

No. I/185 G.D.

The Superintending Engineer, I Circle, is requested to be so good as to report when the designs called for in G.O., No. 919 I., dated 16th October 1897, may be expected to reach this office. The Resident at Hyderabad has sent another reminder for them, and it is requested that their submission may be expedited.

14th December 1897.

(Signed) W. HUGHES,
Chief Engineer for Irrigation.

From W. C. DeMORGAN, Esq., M.I.C.E., Superintending Engineer, I Circle, to the Chief Engineer for Irrigation, dated Waltair, 23rd December 1897, No. 1761 G.D.

With reference to your memo. No. I/185 G.D., dated 14th instant, I have the honour to report that the Executive Engineer, Gódávari Western division, states that the design called for will be submitted in January next after inspection of the locality.

No. I/9 G.D.

With reference to letter No. 1761 G.D., dated 23rd December 1897, from the Superintending Engineer, I Circle, the undersigned has the honour to request that he will be so good as to direct the Executive Engineer, Gódávari Western division, to expedite the submission of the designs referred to.

2nd February 1898.

(Signed) W. HUGHES,
Chief Engineer for Irrigation.

From W. C. DeMORGAN, Esq., M.I.C.E., Superintending Engineer, I Circle, to the Chief Engineer for Irrigation, dated Dowlaishweram, 14th February 1898, No. 2028 G.D.

With reference to your memo. No. I/9 G.D., dated 2nd instant, I have the honour to reply that the Executive Engineer, Gódávari Western division, has reported that he, in company with Mr. Traish, Sub-divisional officer, Tank and Embankment Sub-division, inspected the sites for the proposed anicut on the Tammileru to supply the Lingasamudram tank, &c., and that it is impossible to send a drawing of the proposed anicut as there is no survey of the river; and that this is absolutely necessary as the fall of the country is great. He has further reported that the project seems a most promising one and need not take long to investigate.

2. He has applied for a surveyor to take surveys and levels in addition to an upper subordinate, but I have informed him that an upper subordinate without the assistance of a surveyor could do the work—it being a small project.

3. Sergeant King, Supervisor, will be posted shortly to the investigation and arrangements are now being made to relieve him from the charge of the Western Sub-division.
