Note. In G.O. No. 308 W dated 7th February 1895, an estimate amounting to Rs. 3440 for the construction of a Sub Registrar's Office at Tirukkoiyilur was sanctioned, and materials to a considerable extent were collected for the work. It was subsequently decided to

to convert the old Police hospital into an office for the Sub Registrar at a cost of Rs 1640, and the proposal to construct a new building was abandoned (G.O. No. 2138 W, dated 4th August 1897.)

Some of the materials collected for the new building were used up on the estimate of Rs. 1640, and some were transferred to other works. There now remain articles to the value of Rs 806-13-⁴, which the Superintending Engineer said could be utilised on the proposed new office for the Sub Registrar at Srirangam, estimates for which had been submitted. It appears however from a note from the Judicial Department No. 2028 dated 1st October 1897 that the plan of Sub Registrars' offices is under re-consideration and that there is no immediate prospect of the Sub Registrar's office at Srirangam being put in hand. The Superintending Engineer therefore requests sanction to the sale of the materials valued at Rs 806-13-⁴, if

a fair price can be obtained ^{there-} for the articles consisting of tiles, teak-wood, made up windows, and lead sheeting, none of which will deteriorate quickly, and if they are likely to be sacrificed by sale, it would be better to keep them in stock until they can be used up on other works. On the other hand, if fair value can be obtained for them, it would be well to sell them so as to close the accounts. It is proposed therefore to tell the Superintending Engineer to fix a reserve price and to put up the stores to auction.
