N. 320

Sir,

I regret to have to report that a native girl aged 11 employed in carrying materials on the main Building, Public Office, fell from a height of 18 ft to day at about noon, and fracture her left elbow. She was at once carried to the Raja Mirasidar's Hospital close by and was attended to by the District Surgeon in person who is of opinion that the arm below the elbow will have to be amputated. It appears the child had carried terrace bricks to a portion of the South verandah East wing and was returning off the platform of mango planks arranged across the joists in the usual manner when she missed her footing and fell between the joists to the Basement floor. The incident was purely accidental.

I beg to

Requies H. A. Furnell

Guerra 840

N. 1251

Forwarded to Executive Engineer.

Begging to state that I have enquired into the matter and find that no blame is attached to any one, being quite an accident. I was also informed this morning that the District Surgeon does not now consider it necessary to amputate the injured limb but has put it into splints and has kept the girl in hospital.

Signed, S. S. Price
