MARCH.

Staff Boat for the use of the Collector of Godavari

Proceedings, Revenue Department, sanctioning the construction by the Public Works Department of a —, communicated to Superintending Engineer, I Circle, with direction to have the boat constructed at the Dowlaishweram workshops.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Irrigation.

Read—the following paper:—

G.O., Mis. No. 577, Revenue, dated 7th February 1898.

Read—again the following papers:—

G.O., Mis. No. 2351, Revenue, dated 10th May 1897.

G.O., Mis. No. 5684, Revenue, dated 1st November 1897.

Read—also the following papers:—

From J. C. LARMINIE, Esq. M.I.C.E., Superintending Engineer, I Circle, to the Chief Engineer for Irrigation, dated Camp Dowlaishweram, 27th September 1897, No. 1183 G.D.

As requested in G.O., No. 511 I., dated 2nd June 1897, I have the honour to submit, herewith, an estimate amounting to Rs. 3,140 prepared according to a plan received from the Collector, Gódávári, for constructing a staff boat required for that officer's use.

2. The boat will be larger than the usual Public Works Department first-class boat and will probably be found heavy and difficult to tow and manage.

No. 40 W.

Forwarded with enclosures to the Secretary to Government, Revenue Department, with reference to Government Order in that Department, Mis. No. 2351, dated 10th May 1897.

21st October 1897.

(Signed) W. HUGHES,
Joint Secy. to Government,
Irrigation Branch.

Order—

Before passing final orders on the papers read above the Government desires to have an estimate prepared by the District Board Engineer, Gódávári, of the cost of building a boat according to the plan herewith forwarded.

Proceedings of the Board of Revenue (Land Revenue), Ref. on Gl. No. 6060, dated 21st December 1897, submitting to Government an estimate for building a boat for the use of the Collector of Gódávári.

No. 487 C.

REMARKS on Local Fund Engineer's estimate for a staff boat for Collector of Gódávári.

The Public Works Department estimate amounts to Rs. 3,140 and the Local Fund Engineer's estimate to Rs. 2,300 or a difference of Rs. 840. Of this difference Rs. 663 is due to a general charge of 2 per cent. and a centage of Rs. 25 per cent. included in the Public Works Department estimate. The balance of difference is more than accounted for by the higher rates allowed for teak-wood and carpenter's work in the Public Works Department estimate. The actual saving to Government by employing Local Fund Agency and assuming both estimates to be accurate would therefore be only Rs. 177 and it seems therefore more in accordance with the spirit of G.O., No. 209 W., dated 23rd January 1891, that the boat should be made in the Government shops.

2. As regards the size of the boat, it is larger than the boats used by Public Works Department officers and consequently will require greater power to tow it, but as the Collector points out that he has to pay rent at 18 per cent. of the outlay, there seems to be no reason to object to the extra accommodation desired by him.

3. As the Local Fund Engineer has, it would appear, already built a boat for the Sub-Collector which has given satisfaction, there seems to be no reason to doubt his competency to build a boat for the Collector.

(Signed) W. HUGHES,
Joint Secy. to Government,
Irrigation Branch.

CHEPAUK,
20th January 1898.

Order—Mis. No. 577, Revenue, dated 7th February 1898.

The construction of a staff boat for the use of the Collector of Gódávári is sanctioned.

2. For the reasons stated in paragraph 1 of the note in the Irrigation Department, dated 20th January 1898, the Government considers that the boat should be built by the Public Works Department.
