* Despatch Typed 22/4/98

Issued

There has been some difficulty in connecting the "packing accounts" received from England with the indents for stores required therefrom owing in some cases to the omission of the name of the work for which the articles are required on the indent, and the omission to quote the number of the indent complied with on the "packing account". It is suggested that these particulars might be noted on the documents

Referred

Referred to in future
with advantage.
