Order—No. 1746 W., dated 9th July 1898.

The foregoing papers contain applications from the Superintending Engineers, I, IV, V and VI Circles, for grants required under Excluded Local, Port Funds, for incomplete works of 1897–98, and for new works proposed to be undertaken during the current year. The total demands, details of which are given in the annexed statement, amount to Rs. 11,554 against the balance of the reserve, viz., Rs. 1,010, which is barely sufficient to comply with applications for small allotments that may be received during the course of the year.

2. The Superintending Engineer, I Circle, suggests that the sum of Rs. 7,000 required for the jetties at Cocanada may be provided by transfer from the grant of Rs. 50,000 for the dredger and improvements to the Cocanada bar. This suggestion cannot be adopted, as the allotment for the latter should, if possible, be greatly increased rather than reduced. As, however, there is no likelihood of the question of constructing a combined office and residence for the Port officer at Cochin being settled at an early date, the grant of Rs. 15,000 provided for this work will be withdrawn. Of this sum, Rs. 11,554 will be allotted to the works detailed in the annexed statement, and the balance, viz., Rs. 3,446, added to the reserve.

ORDER.

The foregoing papers contain applications from the Supdg Engineers I, IV, V and VI circles, for funds required under Excluded Local Port Funds, for incomplete works of 1897-98, and for new works proposed to be undertaken during the current year. The demands (details of which are given in the annexed statement) amount to Rs 11.554

2 The ~~existing~~ reserve with the Government is only Rs. 1.010, and is insufficient to comply with applications for small allotments that may be received during the year. A sum of Rs 12,000 is therefore withdrawn from the provision of Rs 50.000 made in the budget for dredger and improvements to Cocanada bar, of which Rs 11.554 are

P. W. 4.

are allotted for the works detailed in the statement, and the balance viz Rs 446, ~~will be~~ added to the reserve.

3 Should the reduced grant for the dredger, and improvements to Cocanada bar, not suffice for expenditure, the Supdg Engineer, I Circle, will apply for an additional allotment later in the year.

CM

P.K.S W

Note. The total demands amount to Rs 11.554, of which the S.E. I Circle applies for a grant of Rs 7.000 for the jetties at Cocanada, and proposes that the amount may be transferred from the provision of Rs 50.000 made in the budget, for dredger and improvements to Cocanada bar, for which no estimate has been sanctioned. If the transfer is accepted, the further sum required is only Rs 4.554, and it is considered unnecessary to apply to the Financial Dept. for an additional allotment. It is therefore proposed to withdraw a sum of Rs 12.000 from the grant for the work above referred to, of which Rs 11.554 are allotted to meet the present demands, and the balance ~~will be~~ added to the reserve to ~~meet~~ comply with future applications

2 As there are a number of unsanctioned works for which funds have been provided in the budget, and on which no expenditure can be incurred without sanctioned estimates, it is highly probable that some of these allotments will be surrendered, and the amount now withdrawn from the grant for the dredger and improvements to Cocanada bar, may, if necessary, be reallotted later in the year.
