9.1.98

With reference to His Excellency's remarks in the accompanying note his orders, I beg to submit a copy from the C.S. for his information giving part of the information required. The establishment under Col Smart consists of 1 Asst Supt & 4 other subordinates, & a number of Surveyors. The work is really that of an Executive Engineer, & Col Smart has been placed in charge thereof because of his intimate knowledge of the Carney Delta. I hope to place an Asst Supt in charge of it next November when, with His Excellency's approval, Col

Smart with success heretofore
in the charge of the Vth Circle
in Col. Ransome's departure
in the morning which he informed
me sometime ago, that he
intended to call on.

2. With regard to the amount
of work actually performed
by Col. Smart himself in
connection with the Thapsie
investigation, he informed
me in March last that he
had nothing to do, & would
have nothing for some months
until the Surveyors had
completed their field work.
There never was, in fact, any
meeting to give this work
to a Subt. Supt, or take it
out of the hands of the S. &
V Circle, provided a good.
As Supt had been given leave for
pursuing the investigation,
& it would I think be very
hard on Mr. De Morgan, who
is doing Subt Supt work in a
very important Circle to deprive
him of his acting allowance for
the sake of giving extra remuneration
to Col. Smart. W. D. C. 6.7.98
