BACK PAPERS.

FURTHER PAPERS.

Copy of letter from the District Magistrate,
Coimbatore Ref. on Cur.No.1961/Mag. of 96,dated 14th September 1896:-

I have the honour to state that the sub jails at Palladam, Avanashi, Erode and Dharapuram require the arrangement of iron-gratings with reference to Rule 322 of the Jail Code, to secure the prisoners when they are ~~outside~~ outside the cells in the day time.

2. The Executive Engineer, estimates the probable cost of the work in each case to exceed Rs.500, as shown in the margin.

3. I have, therefore the honour to request that the Public Works Department may be instructed to make estimates for the works.

Copy of letter from the Inspector-General of Prisons, No. C/1219, dated 7th November 1896:—

With reference to Mr. Francis' endorsement No.2005, dated 3rd October 1896 on letter Reference on Current No.1961 Magl.,dated 14th September 1896 from the District Magistrate Coimbatore (herewith returned) I have the honour to state that in as much as Rule 1351 of the Jail Code requires that prisoners in Subsidiary Jails shall not be kept in their wards during the day,it is desirable on the grounds of discipline and safe custody,that there should be means of confining such prisoners to one particular part of the Jail. It seems to me,however,that the putting up of iron gratings is an unnecessarily costly work and that the object desired would be ^{at} obtained equally well,and at a greatly reduced cost, if the verandahs were enclosed with wire netting in the same manner as has been done with the workshops of Central Jails.

Copy of letter from the District Magistrate of
Coimbatore, Ref. on Cur.No.1961 C/Mag. & 112¹/Mag. of 98,
dated 12th February 1898:-

I have the honour to acknowledge receipt of the letter from the Inspector-General of Prisons dated the 7th November 1896 which has been sent to me for remarks under the
Under

Under Secretary's endorsement of the 9th February 1898 No. 364.

2. The Inspector-General recommends that Sub-jails should be provided with necessary wire-netted enclosures instead of iron grated enclosures in order that the prisoners may be kept securely when they vacate their cells in the day time. This suggestion has my concurrence, iron gratings being immediately unnecessarily expensive. If Government approves, the Executive Engineer will be asked to prepare revised estimates for wire-net enclosures.
