READ—the following papers :—

From L. L. WICKHAM, Esq., Executive Engineer, Nellore Division, to the Superintending Engineer, II Circle, dated 18th November 1897, No. 278 S.E.

Closure of Canals.

I have the honour to inform you that I do not see any use in publishing the dates of closing and opening the canals in this division.

(1) *Pennér Delta*.—Practically closes itself with the river except the ayacut under Sarvapally reservoir and the date of closing that will depend upon the amount of water that can be let down during the monsoon.

(2) Sangam delta depends upon the Kanigiri reservoir and this also depends upon the monsoon.

(3) The closing of the canals on fixed dates discourages second crop which the project can ill afford when repairs, &c., are required in any channel. Notice can be given in the District Gazette that that channel will be closed and the irrigation under the tank treated in the same way as that under any other tank.

(4) Major Baddeley agreed with me in this but I cannot refer to any letter on the subject, as the letter contained other matter and so has been put in another file.

No. 577 N.L.

Forwarded to the Chief Engineer for Irrigation for favour of orders.

Memorandum to the Superintending Engineer, II Circle, dated 17th December 1897, No. 76 N.L.

With reference to endorsement No. 577 N.L., dated 10th December 1897, of the Superintending Engineer, II Circle, the undersigned has the honour to observe that the Collector does not appear to have been consulted in the matter as required by G.O., No. 335 I., dated 31st March 1892. It is requested that this may now be done and the result reported to this office, together with the Superintending Engineer's opinion on the Executive Engineer's proposal.

(Signed) W. HUGHES,
Chief Engineer for Irrigation.

From E. SCOTT, Esq., Acting Collector of Nellore, to the Superintending Engineer, II Circle, dated 2nd February 1898, No. 246 Ver.

With reference to your letter, No. 12 N.L., dated 7th January 1898, I agree with Mr. Wickham that it is unnecessary to publish the dates of closing the canals in the Pennér and Sangam deltas.

No. 181 I., 8TH MARCH 1898.

No. 158 N.L.

Forwarded to the Chief Engineer for Irrigation with reference to memo. No. II/76 N.L., dated 17th December 1897.

2. The undersigned agrees with the Executive Engineer and Collector that it is unnecessary to publish the dates of closing the canals in the Pennér and Sangam deltas.
