With reference to your memorandum n^o 5462C dated 15th December 1897, I have the honour to submit 2 statements showing the present establishment and the furniture in hand and proposed to be supplied from the estimate of Rs 300 now under reference. It will be observed from the statements, that the strength of the establishment is 45 on the whole and the furniture supplied up to date is:-

Tables ————— 2 L.

Chairs 31.

The

The present estimate provides only for 14 tables and 10 chairs, that is, less than the actual requirements if each subordinate were to be provided for; but as the whole establishment is not always engaged in indoor work at one time, the additional number now applied for will suffice for the present establishment but is not at all in excess of requirements.

2. The cost of tables of 5' x 3'-3" provided for in the accompanying estimate comes to Rs 15-4-0 each, as per data enclosed, and tables of this size are absolutely necessary for the purpose of drawing, especially for the work of preparing the large scale irrigation and drainage maps, on which a number of the subordinates are engaged.

3. The rates allowed have been approved and sanctioned in

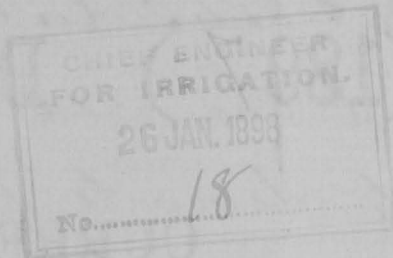

in the previous estimate sanctioned in G. O. No 844 I dated 20th September 1897 and the present estimate does not deviate from the former one either in design or in rates.

I trust that the above explanation will be found satisfactory and that the estimate will now be sanctioned as the want of the additional furniture is much felt.

already made on previous
estimates is not sufficient to
meet the requirement.

This estimate, therefore, provides furniture for the additional establishment as well as two extra admirals required for records.
