This Indent cannot
be passed in the absence
of information what is
really the load the pickers
have to support. It is
not clear why the Indent
was ever forwarded to
the Workshops, as the es-
timate, when forwarded,
may alter the conditions
of load.

2. The Workshop
figures are insufficient.
The pickers they proposed
will not bear 16 tons &
10 tons as there is stated
and the deflection, $\frac{1}{50}$ in. ^{when each load is taken is not known}
is far too great.
