1894, under which the register number, which is communicated at the time of sanction, should be indelibly impressed on each tent, and should be entered in the Executive Engineer's register. The numbers given by the Tail authorities do not concern the P.W. Department, and should not be quoted.

4. The sanction accorded in para 1 has been registered as Provincial No 45 W of 1898-99, and classified as Tools and Plant.

Note. The tents were purchased last year for the use of officers and Subordinates employed on Famine Relief works in the Bellary division. The S.E. did not explain in his first letter that the numbers entered against the tents, which are detailed in the estimate, were those given by the Superintendent of the Central Tail, Bellary. It was found from the register of tents maintained

in the Secretariat, that similar tents with slightly different numbers were sanctioned for the Kistna Eastern division, which gave rise to a presumption that they might have been transferred to the Bellary division for use on Famine Relief works. A reference was therefore made to the S.E. on the point. Vide Memo No 2117 C, dated 6th April 1898. A para has been added to the draft order, calling the attention of the S.E. to G.O. No 885 W, dated 31st March 1894, from which it will be seen that each tent should bear a P.W. register number which is communicated at the time of sanction.

There has been an inordinate delay in submitting the estimate for sanction, as the value of the tents was adjusted in the supplemental accounts for

for March 1897. The item
is held under objection,
which will be removed
by according sanction to
the estimate.
