LOCAL AND MUNICIPAL DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following paper:—

From the Sanitary Commissioner for Madras, dated 3rd June 1898, No. 1485/S, stating that the machine for the Tungabhadra Observation Station was despatched on the 30th May 1898.

From the Sanitary Commissioner for Madras dated 29th July 1898, No. 1482/S.

With reference to your Office note No. 7 P. dated 21st June 1898, I have the honour to forward the accompanying letter from the General Superintendent, Public Works Workshop, Madras, wherein is furnished the information required by Government.

From the General Superintendent, Public Works Workshops, to the Sanitary Commissioner for Madras, dated 22nd July 1898, No. 182 Mis.

With reference to your No. 1482/S of the 4th instant, I have the honour to inform you that the value of the two Pulsometer-Boilers is Rs 1150 each.

2. When Surgeon Colonel King stated that there would be a saving on the estimate for the disinfecting apparatus, he probably expected that no charge would be made for the use of the Pulsometer Boilers. The saving in that case, on the Tungabhadra apparatus, would be Rupees 200 (the value of the old launch-boiler). If, instead of this, the apparatus is to be charged for the use of the boiler in the same manner as a municipality, that is half the cost of the boiler, instead of a saving of Rupees 200 there would be an additional charge of Rs 375. I do not think however, that it would be fair to charge half the cost of the boiler against this work. A municipality would probably require the boiler for several years whereas it may only be required for a few months' use in Plague-work, besides being very lightly worked.

2. I think the fairest arrangement would be to rent the boilers for Plague-work, and I consider Rupees 15 a month each, would be a reasonable rent for these boilers.

Order No. 769 P.Mis., dated 8th August 1898.

The use of the two pulsed for plague disinfection
is sanctioned. The rent which is fixed at Rs 16 a month should
be debited to "local" in accordance with the orders contained in G.O.
No. 547 Financial dated 18th June 1898 (G.O. No. 596 P. date 20th June 1898)

(True Extract)

A. Edington
for Secretary to Government.
