The accompanying draft order came to us for counterinitials, but it has not yet been communicated to us. No orders thereon have yet been issued by us.

A copy of the draft was taken and kept in view to your orders being taken as to the course to be adopted.

All that seems necessary is to warn Suptg Engineers and the Consulting Architect to be in readiness to make all possible reductions in the Provincial grants by stopping such works as can be postponed without loss to the State.
