Reference

Reference,No. 677,dated 21st June 1898.

In Government Order No. 2349 L. Mis,dated 14th November 1894, Government directed that the Local Boards having jurisdiction in the tracts traversed by the Periyar channels and their distributaries should provide funds for the construction of such roads as were necessary to bring the villages affected by the Project into contact with one another as well as with the main lines of traffic. Government remarked that the provision of land for new roads was a legitimate charge on the Project only in cases where the roads were ~~were~~ rendered necessary in consequence of the existing communications being interrupted by irrigation channels and that in another cases the necessary land should be acquired at the cost of Local Funds.

3. In 1896 Mr. Twigg, finding that nothing had been done in this direction by the Local Boards, called for proposals on the subject from the Divisional officers in charge of Madura and Melur taluks. A scheme appears to have been submitted by the Deputy Collector, Madura Division, but Mr. Partridge, the Acting Collector, is of opinion that the officer cannot find time in the midst of his heavy duties to attend to the work connected with the improvement of the village communications. He therefore recommends that the Special Deputy Collector, who has been appointed in connection with the Periyar Project, may be entrusted with this work in addition to his present duties.

5. The Special Deputy Collector is willing to undertake the work on certain conditions of which the principal is that he should be permitted to avail himself of the services of the Special Tahsildar and of a clerk from the Local Fund establishment in addition to the two special surveyors on Rs.50 each, employed by the District Board for the purpose. The Collector supports these proposals and the Board agrees with him. Should Government be pleased to approve these suggestions, the Collector will be requested to obtain from the Special Deputy Collector as early as possible a detailed estimate of the cost of the scheme to Provincial as well as to Local Funds.
