Public Works (1898) Department.

G.O., No. ²²⁶⁻²⁷~~226-7~~ ✓

DATED 18 March 98

[Despatch Abstract.]

Singabamudram tank, Godavari Dt. Ordered that the Resident at Hyderabad be addressed to arrange for a certain resolution of the Joint Committee appointed to settle matters connected with the water supply, both ^{as early as possible} being carried out, and also for the removal of obstruction to the existing course of supply to the tank.

The Resident at Hyderabad addressed accordingly.

8 3.98

G.O.	No.	Department.	Date.	G.O.	No.	Department.	Date.

One of the resolutions
of the Committee was that
the full tank level of
the Subhakumbha tank
be reduced one foot
below the platform
of the present masonry

sluice, & a masonry bye-
wash be constructed by
His Highness the Nizam's
Govt at the western end
of the tank. The Supp.
Engr, 1st Circh, now re-
quests that the Resident
may be addressed to
arrange for the above
being carried out as
early as possible & for
the removal of the ob-
struction to the existing
course of water supply
to the Lingasamudram
Tank which has been
blocked up by a
channel excavated
by the renter of
Subhakunta tank.

HC 4/38. No 226/18-3-98
Order thereon.

The following
letter will be sent.
To the Resident at
Hyderabad
in, Advorting to

RAH
9.3.98

your letter, No 3002, of
27 May/96. I am
directed to inform
you that the Supp. Engr,
1st Circh, brings to
notice that the existing
course of water supply
to Lingasamudram tank
has been blocked up
by a channel excavated
by the renter of Subha-
Kunta tank & to re-
quest that you will
be so good as to
arrange with His
Highness the Nizam's
Govt to have the
obstruction removed
& the water level of
the Subhakunta tank
reduced one foot
below the platform
of the sluice & a masonry
bye-wash at the western
end of the tank con-
structed as early
as possible in accordance

with the Committee's resolution.

Subbuktia.

Sir,

With reference to the above I have the honor to report that the FTL of the Subbuktia has not been lowered.

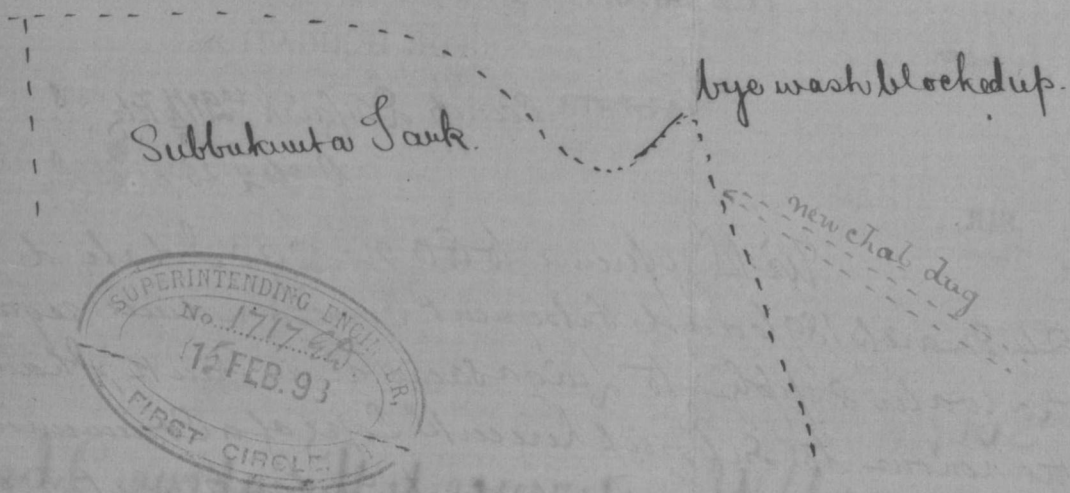

2. That a channel has been dug by the Karmam from a little above the Pt Shank through the high ground to wet his lands on the other side taking water from the Subbuktia, and completely blocking up the surplus water from flowing into the Linga-Samudram Tank Imperial no 64.

3. No land on British territory has

been

been cultivated by the Subbukkunta Tank
waters.

WALTAIR, Camp Anjaish 20th Feb 1898.
Dated 26.2.1898

SIR,

With reference to G.O. No. 290 dated
24 March 1896 and subsequent correspondence regarding
the water supply to Lingasamudram Tank, I have
the honour to submit herewith copy of a communication
received from the Tank and Embankment Subd.
officer of the Godavari West Div No. 2638 of
26.1.98 from which it will be seen that the
existing course of water supply to Lingasamudram
Tank has been blocked up by a channel
excavated by the Karanam (owner of Subbukkunta
Tank) and that the water level of the tank
has not been lowered as agreed to in the
resolution passed by the Council. I therefore
request that you will be so good as to address
the Resident at Hyderabad to communicate with
His Highness the Nizam's Government to make
arrangements to have the obstruction to the
usual water course removed and to have
the water level of the Subbukkunta Tank
reduced 5 feet below the platform of the
Sluice and a masonry byewash at the
Western
