Note by the Chief Engineer P. W. D.

In G.G. No 2141 W, dated 6th August, 1897, an estimate of Rs 8.370 for improvements to ~~the~~ Government House and subsidiary buildings at Kotacamund, was sanctioned. The amount was subsequently increased to a total of Rs 10.065 by two separate supplemental estimates sanctioned by the Supt.g Engineer. The actual outlay incurred on the work amounted to Rs 11.366 or Rs 1301 in excess of the sanctioned estimates. The excess is made up as follows:-

(a)	Increase in rates -	Rs 573
(b)	Extra work -	728
	Total	Rs 1.301

Item (a). The excess in this item is due to extra rates paid for certain portions of the wood work which were executed by the Consulting Architect division. Night labour was employed for the purpose as the work had to be done hastily.

Item (b). The excess under this head is attributed chiefly to the extra work done in panelling the dining room and ~~in~~ constructing

a

a lavatory. These were found necessary when the work was in progress.

2. The outlay on this work was not kept by sub heads, the expenditure having been first incurred against several minor estimates, which were subsequently consolidated into one estimate.

3. The excess is recommended for sanction.

FURTHER PAPERS.

No.	Date.

Letter from C. H. B. Burlton Esq Executive Engineer Coimbatore Division to the Superintending Engineer 4th Circle dated 9th August 1898 No. 3351.

With reference to the final orders of Government regarding item No. 14 in the Provincial Objectionable Item Statement for March 1898, which dealt with the excess over outlay on the work "Improvements to Government House and all subsidiary Buildings, at Ooty." a work completed in March 1898, I have the honour to forward herewith a completion report for the work in question and to state that the excess of Rs 1301 thereon is due to the following causes.

(1) Certain portions of the wood work had to be executed by the Consulting architect Division for which extra rates had

to

to be paid for night labour being employed for the purpose, as the work had to be done hastily. The excess paid on this account comes up to Rs. 573.

2. The difference of the excess is Chiefly due to extra work done in pannelling Dining room and on constructing Lavatory which was found necessary when the work was in progress.

3. The outlay on this work was not kept by Subheads as the expenditure was first incurred against the several individual minor estimates all of which were subsequently consolidated into one estimate, and the excess on each individual estimate cannot therefore now be shown separately.

4 Under these circumstances, I have the honour to request that sanction of Government may be obtained for the excess
