Amount of Estimate, Rs. 7,600

PARTICULARS OF ESTIMATE.

Main Building	Rs.	7,216
Subsidiary Buildings	,,	
Contingencies	,,	
Petty Supervision	,,	384
Land Compensation	,,	
Total Rupees ...		7,600.

W
Estimate may be sanctioned
AK
31.8.98.

We
+ not necessary. Foundns are the same as those of existing building, which I presume exists in land what it. There no
type Verandah titled

Surface & sub soil shd have been stated. The depths of foundations is considerable, but the sub soil at Berwada is usually very bad.
Nature of soil & sub soil, I find, is given in left upper corner of plan & is noted in red.
[P. W. 58 / 250—5-8-96.]
W.C.

W
SA.W. but more than ½ tons shd be allowed per sq. ft for such soil. If you think it advisable, the pressure on foundations will be taken out

PARTICULARS OF CONSTRUCTION.

Surface soil } Black cotton mixed with Sand
Sub-soil } ~~Not given. Taken~~ Slate ~~—~~ do ~~to be according to old plan~~

Foundations Concrete 3'6" wide 2 ft deep Rough stone in cement 2' wide and 3 ft deep. Total depth 5 ft.

Basement Rough stone in Cement to a depth of 2 feet.

Walls Rough stone in Cement to heights indicated in plan & Est. Flat arch work over doors & windows to be of cut stone in Cement.

Plastering or Pointing Plastering Inside with 1 coat of Chunam & White-washing 2 coats. Pointing Exterior.

Flooring Cut Stone 4½" thick laid on a bed of 6" concrete.

Roofing Flat & pantiles with Ridges & Chunam bedes.

Doors and Windows Teakwood ⅓ panel ⅔ Fraction painted 2 coats Chocolate.

Roof timbers Teakwood, wood oiled 2 coats.

Scantlings Correct.

Rates Data submitted in support of principal rates, others according to Schedule.

Rates for principal items are low, & may be accepted.

The plinth area of the main building is 3010 square feet, and the cost per square foot will be Rs. 2-8-5.

The plans and estimates have been countersigned by the Supt Engineer.

and

REMARKS.

The existing building which was originally intended for the accommodation of the Beyonda Range & Overseer's Offices is too small to accommodate the District Engineer's Office; it is therefore proposed to extend the building so as to afford accommodation for the District Engineer's Office Establishment, and Range Office & Overseer's Office which are now located in a rented building in Black-ingham pett which is unsuited for a public Office. The District Engineer and Range Officer are now holding their Offices in their houses for want of accommodation. The new building will consist of 3 rooms, the middle one measuring 16'×16', and the sides 24'×16' Each with a Verandah all round the building. under which will be fitted a bathroom for the Engineer 8'6"×7'6", a dark room for printing plans by means of Ferro-prussiate process, and a tiffen room for clerks Each measuring 7'6"×7'6". A second tiffen room for the Draftsmen will be fitted under the Verandah of the existing building of the same dimensions.

A lumb sum of Rs 400 is provided for Iron Record Racks made of angle iron, but no details are furnished.

A lumb sum of Rs 50 is provided for bathroom

requisites' is inadmissible.

W
The presence of foundations is probably under 1/4 ton per sq. ft. but might be taken note of if you think it necessary.

2. Mrs Hannan knows Bermuda very well & has presumably satisfied herself that the foundations around are such as have proved sufficient in similar existing buildings. The A & P building is simply 2-9-98 on strumps.
