

Public Works (1898) Department.

✓ G.O., No. 2424 W

DATED 19 Sep 98

[Despatch Abstract.]

W H S King, Temporary Asst. Treas. Keeper

until 31 March '98 of The Continued Employment of
Dr. Sanchari; the question of his further employment
from Mr. Rules, referred to the Sub. Dept.

[illegible]

Note.

Note.

There is a permanent Storekeeper in the Kurnool Division a Mr. Dawson, who is drawing Rs. 100 per mensem. Owing to press of work during the famine, Mr. H. S. King was employed as temporary Assistant Storekeeper on Rs. 50 per mensem for the issue and accounting of famine tools.

The Executive Engineer, Kurnool Division, reports that the tools at Kurnool have now been arranged by Mr. Dawson assisted by Mr. King, but that the tools at Dubaguntla (total 48,959) and Cumbum (total 29,429) have yet to be counted and arranged and that revised tools returns from the Nandyal Subdivision have yet to be got in. Also that large numbers of the tools require to be tarred and marked and the serviceable separated from the un-serviceable.

Mr. Dawson, the permanent storekeeper is considerably over 55 years of age, and his retention in the service has been sanctioned from year to year. The Executive Engineer says that while Mr. Dawson is still able to work, he will in the natural course of events have to retire in 2 or 3 years time. He suggests that Mr. King's services-- should be retained permanently, so that when Mr. Dawson retires, he will be at hand to replace him.

Mr. Dawson is an old public servant

servant, who has performed his duties with invariable devotion and fidelity, and the age limit has therefore been extended in his case beyond the usual period. As stated by the Executive Engineer, he cannot continue in service much longer, and it will be of great advantage if a -- trustworthy man is ready to take his place, when the time comes. I know Mr. King personally. He served for years as Master Tailor in the Royal Fusiliers, and is a very steady, trustworthy and methodical man, in every way suited for the important post of storekeeper in a large division, and I hope it may be possible to appoint him permanently to the -- post when the time comes. Meanwhile the Superintending Engineer recommends that Mr. King's services be retained, until the end of the present official year, and this may be sanctioned, so that the rearrangement & painting of the tools may be completed.

This is quite inadmissible.

A.S.H.

This may be done, though I must say I do not much like it.

ORDER.

In the circumstances re-
presented, the continued em-
ployment until 31 March 1899,
of Mr. H. S. King, temporary
Assistant Storekeeper on Rs 50,
per mensem in the Kurnool
division is sanctioned.

2. In G.O. R. No 236 Education
dated 3rd June 1898, Mr. King
was exempted from the operation
of the examination rules upto
31 August 1898. The question of
his further exemption up to
31 March 1899 will be con-

sidered in the Educational
Department, who will be
informed that Mr. King is
a particularly intelligent, trust
worthy man, with a good
military training, a carefully
well fitted in the post
3. As Mr. King is an un-
passed man, his retention
in the service after 31
March

Chy 6276
Let me see the rules.
Mr King is a particularly
useful man, well
suited to the post of
Storekeeper, & I shall
much like to see
him take Mr
Dawson's place
eventually. Why
suggested. In the
Edn. Dept to
uppose sanction?

3.

Note. There is a permanent
Storekeeper in the Kurnool division
a Mr. Dawson, who is drawing
Rs 100 per mensem. Owing to
press. of work during the famine,
Mr. H. S. King was employed
as temporary Assistant Store-
keeper on Rs 50 per mensem for
the issue and accounting of
famine tools.

The Executive Engineer,
Kurnool division reports
that the tools at Kurnool
have now been arranged by
Mr. Dawson assisted by Mr.
King, but that the tools at
Dubagunlla (total 48,959)
and Lumbum (total 29,429)
have yet to be counted and
arranged and that revised
tools returns from the
Nandyal Sub division have
yet to be got in. Also that
large numbers of the tools
require to be tarred and

marked and then serviceable
separated from the unserviceable.

Mr. Dawson, the permanent
Storekeeper is considerably over
55 years of age, and his reten-
tion in the service has been
sanctioned from year to year.
The Executive Engineer ~~says~~ that
while Mr. Dawson is still
able to work, he will in
the natural course of events
have to retire in 2 or 3 years
time. He suggests that Mr.
King's services should be
retained permanently, so
that when Mr. Dawson retires,
he will be at hand to replace
him.

Mr. Dawson is an old
servant, who has performed
his duties with unwavering
devotion & fidelity, & the
apptmt has therefore been
extended in his case
beyond the usual period.
As stated by the Collyer, he
cannot continue in service
much longer, & it will be
of great advantage if a
suitable man is ready

Mr. King is an unpassed
man, and it is not likely
that the Educational Deptt.
will grant him a permanent
exemption from the ex-
amination rules. There is
therefore no object in retain-
ing his services solely because
he may be available to
replace Mr. Dawson, when

the latter retires. The Super-
intending Engineer recommends
that Mr. King's services be
retained until the end of
the present official year,
and this may be sanctioned
so that the rearrangement
and painting of the tools
may be completed. As a
~~permanent assistant to Mr.~~
~~Dawson, he should not be~~
~~needed. There is only one~~
~~stockkeeper in the Bellary~~
~~division, whose permanent~~
pay is Rs 50 per mensem. A
recommendation has recently
been received that this man's
pay should be raised to
Rs 100 per mensem. If the
work in Bellary can be
done by one man, it should
also be done by one man
at ordinary times in Kurnool,
and the fact that Mr. Dawson
is aged is no reason for giving
him an assistant. If he
is getting beyond his work
a younger man should be
employed.

to take his place, when
the time comes. I know
Mr. King personally. He is
served by years as Master
Tailor in the Royal
Tavern, & is a very
steady, trustworthy &
methodical man, in
every way suited for
the important post of
stockkeeper in a large
Division, & I hope it
may be possible to
appoint him permanently
to the post when the
time comes. Meanwhile,

W.D.
10.10.98

employed.

There seems no use, as
suggested by the Supty. Engr.
in bringing up at the end
of the year, the question of
Mr. King's further employment.
He is an unpassed man
and this militates against his
continued employment.
The special work for which
he is now engaged should be
completed by 31st March next.

701W	15-3-98		

Letter from J. B. Johnston Esq. Civil Engineer
Karnool Division, No 1308 dated 4th July 1898,
to the Deputy Engineer, III Circle, Bellary. I do not
think it would be advisable to secure his
services permanently.

The appointment of Mr. H. S. King as Asst.
Store-keeper has been sanctioned in the end of August
but I think it would be advisable to secure his
services permanently.

2. There are three large stores for famine tools
in this District viz. Karnool
Debaguntla
Bumbam.

The tools in each store are as follows:

	Hammer.	Pickaxe.	Pan.	Hammer.	Total.
	iron.	hand.			
Karnool	20,075	21,324	2,006		
Debaguntla	22,147	18,875	1,997		
Bumbam	11,592	17,569	1,200		
Grand total	53,814	57,768	5,203		

During last famine issues from all these stores
to the P. W. Revenue and Local Fund were frequent,
large numbers were lost on works and some seem
to have been stolen.

to have been lost sight of. The accounts got into confusion and have been giving a great deal of trouble. The tools at Kurnool have been now arranged by Mr Dawson assisted by Mr King - but there still remain the tools at Debagunta & Lumbum to be counted and arranged. We have not yet received revised returns from Nandyal Sub Division for $\frac{1}{2}$ year ending August 1897, and there seems no likelihood of the Assistant Engineer assisted by his one clerk being able to put things into order. Mr King has had good training at Kurnool and I propose to send him to the Nandyal Sub Division to put the accounts into order and to arrange the tools regularly. This will occupy Mr King some months till at least the end of December.

3. There seems a probability of famine works being opened shortly in this District and if so Mr Dawson will still more require Mr King's assistance.

4. Besides the putting the tools accounts into order and counting and arranging tools, large numbers require painting and nearly all should be taxed and marked and the unserviceable separated from the serviceable. Mr Dawson is still able to work but in the natural course of events he will have to retire shortly perhaps

in 2 or 3 years time and it would be advisable to be prepared for such a contingency, by having a well trained European ready to take his place.

N^o 14894 Dated 26 July 1898

Forwarded to the Chief Engineer, P.W. Department with a recommendation that Mr King's services be retained upto the end of the present official year, and that the question of his further retention be then again considered. As Mr King is an unpassed man, the undersigned is not at present prepared to recommend him for a permanent appointment.

W Baddley Lieut. Col. R.E.

Supt. Engineer, M. Circle.
