2. A Watchman is necessary for each Rest-House for the following reasons:-

(1) To look after the shed and keep it clean.

(2) To see that they are not spoiled by white ants.

(3) To prevent native travellers causing damage to the Rest-House (lately one died in Perambile shed) by burning fire to warm themselves in cold season, etc.

(4) To prevent Moplah boys causing damage to the walls, doors, and windows of the Rest-House.

(5) And lastly to see that the thatched roofs over wooden beams and rafters (partly wood and bamboos) do not catch fire during summer when sometimes bamboo clumps close by in the forests suddenly catch fire by friction.

To,

The Chief Engineer,
P.W. Department.

Sir,

In forwarding herewith a proposition/statement for watchmen required to look after the buildings in the West Coast Division in 1898-99 for the sanction of Government, I have the honor to report, as follows.

2 A proposition/statement including the items chargeable to works was forwarded with Executive Engineer's letter No. 220/S.C. dated 9th May 1898. This was returned to him for revision and resubmission with explanation as to the necessity for the entertainment of watchman in each case. A revised statement was

was sent in by the Executive Engineer with his letter No. 462/S.C. dated 20th August 1898 which was received in this office on the 24th Idem after a lapse of nearly three and half months.

3. The Executive Engineer was asked in this office No. 454/W.C. dated 29th August 1898, why provision was made for the watchman for the whole year, and he now explains that the men were employed from the beginning of the year as it was necessary in the interests of Buildings, that there should be some one in charge.

4. In these circumstances I request you will be good enough to obtain the sanction of Government to the entertainment of watchmen noted in the proposition statement.

I have the honorable
Sir.
Your most Obedt Servt.
