Enclosures 2.

Sir,

With reference to your No.803 dated 28th June 1897

I beg to report that the Headmaster, Government Training School, Salem, tells me that a building comprising of 3 rooms each, 20 X 20, are required for black board exercises.

From the sketch accompanying it will be seen that the open space at the entrance is used as play-ground and at the south of the main building A, there are two other structures and a latrine. Any additional building at the south of A and West of B will bring the detached building close to each other.

I am therefore of opinion that it is not advisable to erect a separate building, but if additional space be required the building B can be extended 25 feet on the North and 15 feet on the south side of it.

The Headmaster's prayer made in paragraph 4 of his letter No.297, dated 22nd April 1897, can be ^{list} compiled with by erecting a verandah 6 feet wide all round the building A.

I have &c.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following paper:—

From the Director of Public Instruction, Madras, No. 11761, dated 21st October 1897:—

I have the honour to report that the Government Training School, Salem, suffers at present from want of sufficient accommodation and to request that sanction may be accorded for the preparation by the Public Works Department of a plan and estimate for additions to the existing building, which was transferred to the Department by the District Board, Salem. A copy of the endorsement of the Superintending Engineer, IV Circle, No. 415 of the 31st July 1897, on the Sub-Divisional officer's report as to the extensions to be made is herewith submitted for information.
