Account.

READ—the following papers :—

From J. HANNAN, Esq., Superintending Engineer, II Circle, to the Chief Engineer for Irrigation, dated Bezvada, 19th March 1898, No. 806 K.E.

With reference to paragraph 3 of G.O., No. 801 I., dated 1st September 1897, I have the honour to forward herewith, for your approval and sanction of Government under Revenue Account, an estimate amounting to Rs. 22 for supplying paddy seeds for experimental irrigation in the Kistna Eastern division.

2. The report which accompanies the estimate explains the necessity for the supply of seeds.

ENCLOSURE.

REPORT to accompany the estimate for supplying seeds to ryots for experimental cultivation, estimate Rs. 22.

During the last four years seed rice (three months' crop) has been supplied to the ryots holding land bordering on the Colair lake in order to encourage extension of a crop which can be reaped before the lake rises to any great extent. In this year forty bags of seed rice were received from Tanjore, but, as it was too late in the year for the distribution of the whole, 36 bags were transferred to the Northern division, the amount of the estimate is the cost of the quantity retained in this division.

1st March 1898.

(Signed) S. WILSON,
Ex. Engr., Kistna Eastern Division.

No. 114 I.

Note by the Chief Engineer for Irrigation.

The accompanying estimate of Rs. 22 submitted by the Superintending Engineer, II Circle, provides for the purchase of paddy for supply to the ryots holding lands under the Colair lake for growing an experimental three months' crop.

The estimate may be sanctioned.

28th March 1898.
