Copy of letter from J. S.
Wilson Inquire, Executive Engineer, the
Tua Eastern Division, to the Superin-
tending Engineer, 2nd Circle, No. 452 B.S., of 28/2/98

With reference to para 3 of your
No. 2776 K of 5-9-98, I have the honour
to state that though Rs 10000 have
been provided in the Budget for the
Port of Basulipattam, I have received
no instructions regarding the preparation
of the estimate. An estimate has
been prepared for bridging the channel
below the lock, but I do not know
whether this is considered to be
a portion of the scheme, if it is
the estimate which amounts to Rs 10000
can be carried out in this offi-
cial year, as regard the balance
of the grant, I presume that
an accurate survey of the
river will first be required;
this is not yet in existence
or rather has yet been carried

Maps B & C

out in this Department and I
presume from the correspondence
ending with G.O. No. 575 ⁸⁻⁷⁻⁹⁸ that the
Marine Department has not yet ^{communicated}
undertaken it. In conversation ^{with you}
with the Port Officer, I asked
him whether he knew of any
correspondence relating to the
budget provision above noted;
and was informed by him that
though the bar needs attention,
he is not aware of any special
work having been proposed. I request
instructions with regard to the above.

No. 3069 K2.
3.10.98

Forwarded to the Chief
Engineer, Public Works Depart.
- sent with a request that
information as to the work on which
the sum of Rs 10,000 was proposed
to be spent, may be given.

No 1412
379

In the forecast Estimate of 5 years re-quirements (G.O. No. 316, Marine, dated 29 April 1898) a sum of Rs. 25,000. was provided for improvements to Bar and River, Masulipatam. Out of this sum a grant of Rs. 10,000. was made in the Budget for 1898/99 for such work as may have to be carried out this year. There was a proposal from the Port Officer for dredging the Sidab Creek at Masulipatam to a further depth of 3 feet, which was referred to the Superintending Engineer, and his telegram regarding the estimate of Rs. 4,000. apparently has reference to this. That estimate has not yet been received in this office.

2. There is also a recent proposal from the Port Officer to erect a training

Groynes to divert the river water towards the bar.

3. The sum standing to credit of the Landing and Shipping ~~and~~ fund at Maunipattam on 31st March 1898 was Rs 11,000. of which Rs 5,000. is in Government paper. The cost of the work proposed by the Executive Engineer could be met by a special grant from this fund.

4. A survey of the nature referred to by the Executive Engineer, Kistna, Eastern Division, has been carried out. As the mouth of the river changes considerably from time to time it is for consideration whether a survey of the river would be of any practical use.

H. A. Theet

Deputy Port Officer, 3, Commander, R. D. M. S. Madras, 31 October 1898. Deputy Port Officer.

To Mr.

The Secretary to Government,
Marine Department,
(Unofficially)

"Dredging the Channel below the lock."

No special grant from unallotted balances can be made during the year. But there is no necessity in this case for a special grant. There is already a provision of Rs 10,000 in the budget for the work. vide Item 12 on p. 7 of the Enclosed Local P. W. Budget.
