Letter No. 3724 dated 25th October 1898 from John C. Johnston Esqr. Executive Engineer Kurnool Dn. to the Superintending Engineer, III Circle, Bellary

---

I have the honour to inform you that the old materials such as doors, windows and scantlings obtained from demolishing the old cutcherry at Koilkuntla from time to time can mostly be used in the construction of the new building. As it will take some time however before the estimate can be sanctioned and allotment made, it is proposed to bring the materials on to Stock till they are actually issued to the work and at the same time to close the repair estimate to which they belong as "Materials at Site"

2. I therefore request you will be good enough to obtain sanction of Govt for increasing the limit of Reserve Stock from Rs:2500 to Rs:3000 temporarily till such time as the estimate for the work is sanctioned and allotment made. I have given a nominal value to the materials so as to swell the Stock Reserve amount too much.
