Informing the Superintending Engineer, V Circle, that G.O., No. 1809 W., dated 7th July 1887, regarding the responsibility of Executive Engineers only for the assessment of buildings borne on the books of the Public Works Department, is still in force and should continue to guide officers of the department.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following paper:—

From Colonel A. W. SMART, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Chepāk, 27th October 1898, No. 670 W.

The Executive Engineer, Tanjore division, having brought to notice that G.O., No. 1809 W., dated 7th July 1887, laying down that "an Executive Engineer should only be responsible for assessment of buildings which are borne on the books of the Public Works Department, that of other Government buildings being certified to by the departmental officers concerned," does not seem to be generally known, I have the honour to enquire, with reference to G.O., No. 2263 W., dated 5th August 1896, if the order first quoted above is to be considered as being still in force, and if it is, to request that attention may be called to it, as it will probably save Executive Engineers a great deal of signing, and may be made applicable for certificates demanded by the unions of the Local Funds for buildings not borne on the books of the Public Works Department.

ORDER—No. 2948 W., dated 21st November 1898.

The Superintending Engineer, V Circle, will be informed that G.O., No. 1809 W., dated 7th July 1887, is still in force, and should continue to guide officers of the Public Works Department.
