Sir,
Referring to item 228 of the Annual Public Works Indent No.1 dated 9th March 1898, viz:
Mortar pans, light pattern, 400,
I have the honour to inform you that the pans have been ordered at a cost of 1/- each or £20. in all.
It is suggested that it would be an improvement if the top edge of such pans were turned over and wired. This could be done at an extra cost of 2d. each, and I shall be obliged if you will inform me whether this suggestion, should be adopted in future supplies.

I have the honour to be, Sir,
Your obedient Servant,
Grant Durl
Director General of Stores.

The Secretary to the Government of Madras,
Public Works Department,
Madras.

Copy of a letter from H. A. Moss Esq. General Superintendent, P. W. Stores, to the Suptg. Engineer, 5 Circle, N. 201 St. dated 1st November 1898.

With reference to your endorsement N. 499 P. W. S. dated 27th October 1898, I have the honor to inform you that we seem to have made a mistake in indenting on the Director General of Stores for the mortar pans. 1 shilling each for them is rather expensive seeing that the same article can be had here in the bazaar for 12 annas at most which, at the present rate of exchange is what the Director General of Stores has paid for them.

The wiring of the pans which he suggests is unnecessary. It would only make the edges more durable and as it is the bottom goes before the edges.
